HISTORICAL FICTION BOOK OF THE MONTH - THE TIMES
One night in autumn 1944, a gunshot echoes through the alleyways of a small town in occupied Poland. An S.S. officer is shot dead by a young Polish Jew, Margarita Ejzenstain. In retaliation, his commander orders the execution of thirty-seven Poles - one for every year of the dead man's life. First hidden by a German couple, Margarita must then flee the brutal advance of the Soviet army with her new-born baby. So begins a thrilling panorama of intermingled destinies and events that reverberate from that single act of defiance. KINGDOM OF TWILIGHT follows the lives of Jewish refugees and a German family resettled from Bukovina, as well as a former S.S. officer, chronicling the geographical and psychological dislocation generated by war. A quest for identity and truth takes them from Displaced Persons camps to Lübeck, Berlin, Tel Aviv and New York, as they try to make sense of a changed world, and of their place in it. Hypnotically lyrical and intensely moving, Steven Uhly's epic novel is a finely nuanced and yet shattering exploration of universal themes: love, hatred, doubt, survival, guilt, humanity and redemption. For readers of HHHH by Laurent Binet, THE KINDLY ONES by Jonathan Littell, THE ZONE OF INTEREST by Martin Amis, and ALL THE LIGHT WE CANNOT SEE by Anthony Doerr Translated from the German by Jamie Bulloch Kingdom of Twilight Gramercy Books

The Origin of Competitive Strength
When the war ended on August IS, 1945, I was a naval engineering cadet at the Kure Navy Yard near Hiroshima, Japan. A week later, I was demobi lized and returned to my home in Tokyo, fortunate not to find it ravaged by firebombing. At the beginning of September, a large contingent of the Ameri can occupation forces led by General Douglas MacArthur moved its base from Yokohama to Tokyo. Near my home I watched a procession of American mili tary motor vehicles snaking along Highway 1. This truly awe-inspiring cavalcade included jeeps, two-and-a-half-ton trucks, and enormous trailers mounted with tanks and artillery. At the time, I was a 21-year-old student in the Machinery Section of Engineering at the Tokyo Imperial University. Watching that mag nificent parade of military vehicles, I was more than impressed by the gap in industrial strength between Japan and the U. S. That realization led me to devote my whole life to the development of the Japanese auto industry. I wrote a small article concerning this incident in Nikkei Sangyo Shimbun (one of the leading business newspapers in Japan) on May 2, 1983. The English translation of this story was carried in the July 3, 1983 edition of the Topeka Capital-Journal and the September 13, 1983 issue of the Asian Wall Street Journal. The Topeka Capital-Journal headline read, "MacArthur's Jeeps Were the Toyota Catalyst.
