Since a deadly virus and the violence that followed wiped out his parents and most of his community, Finn has lived alone on the rugged coast with only his loyal dog Rowdy for company. He has stayed alive for two winters—hunting and fishing and trading food, and keeping out of sight of the Wilders, an armed and dangerous gang that controls the north, led by a ruthless man named Ramage. But Finn's isolation is shattered when a girl runs onto the beach. Rose is a Siley—an asylum seeker—and she has escaped from Ramage, who had enslaved her and her younger sister, Kas. Rose is desperate, sick, and needs Finn's help. Kas is still

missing somewhere out in the bush. And Ramage wants the girls back—at any cost. ‘Tense and atmospheric...Mark Smith’s debut is assured, gripping and leaves you wanting more.’ Best Books for Younger Readers 2016, Sydney Morning Herald ‘It’s easy to see why Mark Smith’s dystopian thriller has been compared with John Marsden’s Tomorrow When the War Began. Landmark civil rights laws were passed. Pivotal campus

protests were waged. A spring block party turned into a three-night riot. Factor in urban renewal troubles, a bitter battle over efforts to build Frank Lloyd Wright ’ s Monona Terrace, and the expanding influence of the University of Wisconsin, and the decade assumes legendary status. In this first-ever comprehensive narrative of these issues—plus accounts of everything from politics to public schools, construction to crime, and more—Madison historian Stuart D. Levitan chronicles the birth of modern Madison with style and well-researched substance. This heavily illustrated book also features annotated photographs that document the dramatic changes occurring downtown, on campus, and to the Greenbush neighborhood throughout the decade. Madison in the Sixties is an absorbing account of ten years that changed the city forever. Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

A philosopher/mechanic's wise (and sometimes funny) look at the challenges and pleasures of working with one's hands " This is a deep exploration of craftsmanship by someone with real, hands-on knowledge. The book is also quirky, surprising, and sometimes quite moving. " —Richard Sennett, author of *The Craftsman* Called " the sleeper hit of the publishing season " by The Boston Globe, *Shop Class as Soulcraft* became an instant bestseller, attracting readers with its radical (and timely) reappraisal of the merits of skilled manual labor. On both economic and psychological grounds, author Matthew B. Crawford questions the educational imperative of turning everyone into a " knowledge worker, " based on a misguided separation of thinking from doing. Using his own experience as an electrician and mechanic, Crawford presents a wonderfully articulated call for self-reliance and a moving reflection on how we can live concretely in an ever more abstract world.
