F1 Mavericks is the story of the grandest, most influential, and most fondly remembered era in Formula 1 racing as seen through the lens of master motorsports

photographer, Pete Biro. The period from 1960 to 1982 saw the greatest technological changes in the history of Formula 1 racing: the transition from front engines to rear engines, narrow-treaded tires, massive racing slicks, zero downforce, and neck-wrenching ground effects—and, of course, a staggering increase in performance and reduction in lap times. In short, the period saw the creation of the modern Formula 1 car. This is also the time when legendary names who defined F1 were out in full force: Jim Clark, Jack Brabham, Dan Gurney, Sir Jackie Stewart, Graham Hill, Niki Lauda, James Hunt, Bruce McLaren, Jody Scheckter. We'll see and meet all of them. But F1 Mavericks also focuses on the designers and engineers behind the cars—men like Colin Chapman, Sir Patrick Head, Maurice Philippe, Franco Rochhi, Gordon Murray, and many others. We'll hear directly from many of them, including a foreword from 1978 F1 World Champion, Mario Andretti. Every chapter is a photographic account of key races throughout the period, supplemented with

sidebars featuring key designers and technologies, like wings, ground effects, slick tires, turbochargers, and the Brabham "fan" suction car. F1 Mavericks is an international story, and includes loads of information on designs from Japan (Honda), Britain (McLaren, Tyrrell, Cooper, BRM) Italy (Ferrari, Maserati, Alfa Romeo), France (Matra, Ligier, Renault), Germany (Porsche, BMW) and the United States (Eagle, Shadow, Penske, Parnelli). Strap yourself in for the story of the greatest era in Formula 1 racing—it's all here in F1 Mavericks.

The 308 GT4 was a replacement for the original 246 series Dino. It wore the Dino badges and it shared the 246's transverse mid-engined layout. It was a 2+2 rather than an uncompromising two seater, and it broke new ground in having a body styled by Bertone. Sales were steady but not spectacular. The Dino

badging was dropped
in May 1976 and
production began to
trail off during 1978
- the last one was
built in January
1980. The Mondial
didn't fare very well
- it was a heavier
car and a
disappointment to
Ferrari fans and only
survived until 1982.
However, the Mondial
Quattravalvole showed
that Modena had got
the formula right
this time and when a
gorgeous cabriolet
version joined the
original coupe in
1984, sales
practically doubled
overnight. There are
plenty of Ferrari
enthusiasts who
number the models in
this book among their
most coveted cars,
and they will find
plenty to feed their
passion on its pages.
