In this riveting critique of the Fleet Air Arm's policy across two world wars, former FAA Fighter Pilot Henry Adlam charts the course of its history from 1912 to 1945, logging the various milestones, mistakes and successes that characterized the service history of the Fleet Air Arm. Offering criticism

on the service hierarchies that made up the Fleet, backed up by his having served in six Carriers and flown from them in all five theaters of sea warfare during five years of the Second World War, Adlam presents a highly entertaining and potentially controversial study which is sure to appeal to a wide array of aviation enthusiasts. Adlam charts the catalogue of errors that blighted the history of the Naval Air Service, which followed the disastrous decision in April 1918 to transfer the whole of the Air Service of the Royal Navy to form the new RAF. The main and overriding criticism that the author finds with the Fleet Air Arm lies in the manner in which it was led. Adapting the oft-quoted "Lions led by Donkeys" description of the British Army, Adlam describes the activities of the Fleet Air Arm in the Second World War as the result of "Sea Eagles led by Penguins" practices, when experienced pilots were led into battle by senior members of the Navy who possessed little or no flying experience. This led to a whole host of disasters costing many lives amongst flight personnel. Adlam charts the errors that blighted the history of the Fleet Air Arm and shows how its recovery and the triumphant turnaround of its fortunes were all the more remarkable. Taking the reader on a journey from inception during First World War service, throughout all the many disasters and successes that followed between the Wars and on into the Second World War and beyond, this book offers engaging new insights and a degree of critical candor that set it apart from other Fleet Air Arm histories currently available on the market.

The Soul of an Entrepreneur

An award-winning business writer dismantles the myths of entrepreneurship, replacing them with an essential story about the experience of real business owners in the modern economy. We're often told that we're living amidst a startup boom. Typically, we think of apps built by college kids and funded by venture capital firms, which remake fortunes and economies overnight. But in reality, most new businesses are things like restaurants or hair salons. Entrepreneurs aren't all millennials -- more often, it's their parents. And those small companies are the fabric of our economy. The Soul of an Entrepreneur is a business book of a different kind, exploring our work but also our passions and hopes. David Sax reports on the deeply personal questions of entrepreneurship: why an immigrant family risks everything to build a bakery; how a small farmer fights to manage his debt; and what it feels like to rise and fall with a business you built for yourself. This book is the real story of entrepreneurship. It confronts both success and failure, and shows how they can change a human life. It captures the inherent freedom that entrepreneurship brings, and why it matters.
