This, the 30th edition of the "United States Government Printing Office Style Manual," is the first revision to this authoritative style manual since 2002. The "GPO Style Manual, as it is popularly known, is issued under the authority of section 1105 of Title 44 U.S.C., which requires the Public Printer, as head of the GPO to "determine the form and style in which the printing...ordered by a department is executed...having proper regard to economy, workmanship, and the purposes for which the work is needed." The Manual is prepared by the GPO Style Board, composed of proofreading, printing, and Government documents specialists from within GPO, where all congressional publications, and many other key Federal Government documents are prepared. The first "GPO Style Manual" appeared in 1894. It was developed originally as a printer's stylebook to standardize word and type treatment and remains so today. Through successive editions, however, the "GPO Style Manual" has come to be widely recognized by writers and editors both within and outside the Federal Government as one of the most useful resources in the editorial arsenal. This new, revised version of the "GPO Style Manual" has been thoroughly redesigned to make it more modern and easier to read, and the content has been updated generally throughout in keeping with current usage.

The Office of Strategic Services, the forerunner of the Central Intelligence Agency, was founded in 1942 by William 'Wild Bill' Donovan under the direction of President Roosevelt, who realized the need to improve intelligence during wartime. A rigorous recruitment process enlisted agents from both the armed services and civilians to produce operational groups specializing in different foreign areas including Italy, Norway, Yugoslavia and China. At its peak in 1944, the number of men and women working in the service totaled nearly 13,500. This intriguing story of the origins and development of the American espionage forces covers all of the different departments involved, with a particular emphasis on the courageous teams operating in the field. The volume is illustrated with many photographs, including images from the film director John Ford who led the OSS Photographic Unit and parachuted into Burma in 1943.
