The first Situationist text to be published in the UK in 1974, 'Leaving the 20th Century' was Chris Gray and the English situationists' attempt to capture and distil the vibrant anti-art, anti-capitalist energy of the original International Situationist texts (1957-74). With its loose translations and irreverent commentary, Gray and co. attempted to capture the "terrorism, wit and general megalomania" of the original publications, whilst faithfully reprinting the "photographs of girls, soldiers, bombings, comic-strip frames, maps of cities and diagrams of labyrinths, cathedrals and gardens." From the art/anti-art beginnings, to the role of the Situationists in the worker-student insurrection of May 68', 'Leaving the 20th Century' remains the definitive English pro-situ text.

"Keep away from MR. AURIC GOLDFINGER. He is a most powerful man. If he wished to crush you, he would only have to roll over in his sleep to do so." OPERATION GRAND SLAM Secret agent James Bond had been warned not to tangle with Goldfinger. But the super-criminal's latest obsession was too strong, too dangerous. He had to be stopped. Goldfinger was determined to take possession of half the supply of mined gold in the world—to rob Fort Knox! For this incredible venture he had enlisted the aid of the top criminals in the U.S., including a bevy of beautiful thieves from the Bronx. And he had conceived so foolproof a plan that it would take all of Bond's unique talents to make it fail—as fail it must. JAMES BOND challenges GOLDFINGER, THE MOST EVIL GENIUS HE HAS EVER FACED. He's a phenomenal criminal who likes his women dressed only in gold paint. He's a magnificent fiend who carries his cash in gold bars. He's a powerful villain who plans to pull the biggest and boldest crime in history—the robbery of all the gold in Fort Knox. "It's all marvellously intricate and polished storytelling, all absurdly impossible, all superlative fun." —Cleveland News. "We recommend Goldfinger for just what it is: sophisticated, tongue-in-cheek entertainment par excellence." —Playboy Magazine. "If you like heroes heroic, a woman who proves, finally, that she's all woman, and a villain who is a dirty dog, then Goldfinger is for you." —Detroit Sunday Times.

THE USA TODAY BESTSELLER 'As fast paced as a thriller' Fred Burton, Stratfor Talks' Pen and Sword Podcast 'Jacobsen here

presents a tour de force exploring the CIA's paramilitary activities...this excellent work feels like uncovering the tip of the iceberg ...Highly recommended for those seeking a better understanding of American foreign policy in action' Jacob Sherman, Library Journal 'A behind-the-scenes look at the most shadowy corners of the American intelligence community...Well-sourced and well-paced, this book is full of surprises' Kirkus 'Annie Jacobsen takes us inside the darkest and most morally ambiguous corner of our government, where politicians ask brave men and women to kill-up close and personal-on America's behalf' Garrett M. Graff, author of Raven Rock: The Story of the U.S. Government's Secret Plan to Save Itself - While the Rest of us Die 'This is a first rate book on the CIA, its paramilitary armies, operators, and assassins' New York Journal of Books 'Having already demonstrated her remarkable aptitude for unearthing government secrets in books like Area 51 (2011) and The Pentagon's Brain (2015), Jacobsen pulls back the curtain on the history of covert warfare and state sanctioned assassinations from WWII to the present...Jacobsen's work revealing a poorly understood but essential slice of warfare history belongs in every library collection' Booklist The definitive, character-driven history of CIA covert operations and U.S. government-sponsored assassinations, from the author of the Pulitzer Prize finalist The Pentagon's Brain Since 1947, domestic and foreign assassinations have been executed under the CIA-led covert action operations team. Before that time, responsibility for taking out America's enemies abroad was even more shrouded in mystery. Despite Hollywood notions of last-minute rogue-operations and external secret hires, covert action is actually a cog in a colossal foreign policy machine, moving through, among others, the Bureau of Intelligence and Research, the House and Senate Select Committees. At the end of the day, it is the President, not the CIA,

who is singularly in charge. For the first time, Pulitzer Prize finalist and New York Times bestselling author Annie Jacobsen takes us deep inside this top-secret history. With unparalleled access to former operatives, ambassadors, and even past directors of the Secret Service and CIA operations, Jacobsen reveals the inner workings of these teams, and just how far a U.S. president may go, covertly but lawfully, to pursue the nation's interests.

In February 1999, only a few weeks before the U.S. Air Force spearheaded NATO's Allied Force air campaign against Serbia, Col. C.R. Anderegg, USAF (Ret.), visited the commander of the U.S. Air Forces in Europe. Colonel Anderegg had known Gen. John Jumper since they had served together as jet forward air controllers in Southeast Asia nearly thirty years earlier. From the vantage point of 1999, they looked back to the day in February 1970, when they first controlled a laser-guided bomb strike. In this book Anderegg takes us from "glimmers of hope" like that one through other major improvements in the Air Force that came between the Vietnam War and the Gulf War. Always central in Anderegg's account of those changes are the people who made them. This is a very personal book by an officer who participated in the transformation he describes so vividly. Much of his story revolves around the Fighter Weapons School at Nellis Air Force Base (AFB), Nevada, where he served two tours as an instructor pilot specializing in guided munitions.

Celebrating its 30th anniversary in 2024, internationally bestselling author and literary icon Julia Alvarez's *In the Time of the Butterflies* is "beautiful, heartbreaking and alive ... a lyrical work of historical fiction based on the story of the Mirabal sisters, revolutionary heroes who had opposed and fought against Trujillo." (Concepción de León, New York Times) Alvarez's new novel, *The Cemetery of Untold Stories*, is coming April 2, 2024. Pre-order now! It is November 25, 1960, and three beautiful sisters have been found near their wrecked Jeep at the bottom of a 150-foot cliff on the north coast of the Dominican Republic. The official state newspaper reports their deaths as accidental. It does not mention that a fourth sister lives. Nor does it explain that the sisters were among the leading opponents of Gen. Rafael Leónidas

Trujillo's dictatorship. It doesn't have to. Everybody knows of Las Mariposas—the Butterflies. In this extraordinary novel, the voices of all four sisters—Minerva, Patria, María Teresa, and the survivor, Dedé—speak across the decades to tell their own stories, from secret crushes to gunrunning, and to describe the everyday horrors of life under Trujillo's rule. Through the art and magic of Julia Alvarez's imagination, the martyred Butterflies live again in this novel of courage and love, and the human costs of political oppression. "Alvarez helped blaze the trail for Latina authors to break into the literary mainstream, with novels like *In the Time of the Butterflies* and *How the García Girls Lost Their Accents* winning praise from critics and gracing best-seller lists across the Americas."—Francisco Cantú, *The New York Times Book Review* "This Julia Alvarez classic is a must-read for anyone of Latinx descent."—Popsugar.com "A gorgeous and sensitive novel. . . A Frenchman rents a Hollywood movie. A Thai schoolgirl mimics Madonna. Saddam Hussein chooses Frank Sinatra's "My Way" as the theme song for his fifty-fourth birthday. It is a commonplace that globalization is subverting local culture. But is it helping as much as it hurts? In this strikingly original treatment of a fiercely debated issue, Tyler Cowen makes a bold new case for a more sympathetic understanding of cross-cultural trade. Creative Destruction brings not stale suppositions but an economist's eye to bear on an age-old question: Are market exchange and aesthetic quality friends or foes? On the whole, argues Cowen in clear and vigorous prose, they are friends. Cultural "destruction" breeds not artistic demise but diversity. Through an array of colorful examples from the areas where globalization's critics have been most vocal, Cowen asks what happens when cultures collide through trade, whether technology destroys native arts, why (and whether) Hollywood movies rule the world, whether "globalized" culture is dumbing down societies everywhere, and if national cultures matter at all. Scrutinizing such manifestations of "indigenous" culture as the steel band ensembles of Trinidad, Indian handweaving, and music from Zaire, Cowen finds that they are more vibrant than ever--thanks largely to cross-cultural trade. For all the pressures that market forces exert on individual cultures, diversity typically increases within society, even when cultures become more like each other. Trade enhances the range of individual choice, yielding forms of expression within cultures that flower as never before. While some see cultural decline as a half-empty glass, Cowen sees it as a glass half-full with the stirrings of cultural brilliance. Not all readers will agree, but all will want a say in the debate this exceptional book will stir.

Yet their rebellion at the Rubber Rose Ranch is almost overshadowed by the arrival of the legendary Sissy Hankshaw, a white-trash goddess literally born to hitchhike, and the freest female of them all. Freedom, its prizes and its prices,
