Trading Card Games For Dummies Penguin UK

The Penguin Book of Card Games is the authoritative up-to-date compendium, describing an abundance of games to be played both for fun and by serious players. Auctions, trumpless hands, cross-ruffing and lurching: card players have a language all of their own. From games of high skill (Bridge) to games of high chance (Newmarket) to trick-taking (Whist) and banking (Pontoon), David Parlett, seasoned specialist in card games, takes us masterfully through the countless games to choose from. Not content to merely show us games with the conventional fifty-two card pack, Parlett covers many games played with other types of cards - are you brave enough to play with Tarot? With a 'working description' of each game, with the rules, variations and origins of each, as well as an appendix of games invented by the author himself, The Penguin Book of Card Games will delight, entertain and inform both the novice and the seasoned player.

Instructional book on the card game Spades

3-Card Casino Poker: Tactics and Strategies for Success Harper Trophy  
 Three Card Poker brings together the strategy of poker with the excitement of jackpot style bonuses. In this game each player plays only against the Dealer (just like in Black Jack) and not against the other Players which adds a special allure to the game for those who do not choose to go head to head against other players on regular poker tables. The game is

also played with a single deck which can be used to your advantage as described later in this document. In Three Card Poker, a multi-hand variation of poker, you can play up to either 2 or 3 different hands simultaneously against the dealer's hand. The number of hands you can bet on during a single session varies by casino. For instance, at the time of publication Foxwoods and Mohegan Sun in Connecticut allowed 3 simultaneous hands per player but Twin River only allows 2 simultaneous hands per player. If you beat the dealer's hand straight-up you will win both the Ante Bet and the Play Bet. You will also receive an extra payoff on the Play Pair Plus amount where you must get a Pair of any kind or a better premium hand like a Straight, Flush, 3-of-a-Kind or Straight Flush to win an additional amount. If you have a premium 6 Card hand (combining your 3 cards with the Dealer's 3 cards into a 5 card Bonus hand) you will win an additional amount if the casino offers that option based on the 6 Card Hand payout amounts which also vary by casino. Our advanced strategy recommends that you play 2 different hands per shuffle with 3 bets each, in order to be able to offset one poor hand with a possibly higher hand. This might appear to produce a net detrimental or negative effect but when combined with increasing your wagers by 50%, only once, after a total loss in the previous hand, at your sole option and risk, it appears to produce a desirable diversification effect over the long term based on our personal experiences. You potentially Win At 3 Card Poker on as many of 4 of the betting spots if and only if the following conditions are true. There are 3 or 4 ways to win in Three Card Poker. By the same token there are also 3 or 4 ways to lose at Three Card Poker: 1) Beat the dealer's qualifying hand or observe a non-Qualifying hand in the Dealer's Hand and win an even money payout on your Ante wager 2) Beat the dealer's qualifying hand and win an even money payout on your Play wager without any commissions charged like in Baccarat. 3) Receive a bonus when your hand qualifies for one of the Ante bonuses (Red Diamond) or the Pair Plus Bonuses (Yellow Circle) 4) Receive a bonus when 5 of the best cards in your hand plus the dealer's hand qualifies for one of the 6-card bonus (White Circle) hand rankings. 5) Of course you will lose all 4 of your bets if you do not have a Pair or better or a another Bonus hand and your hand is lower than the Dealer's Hand. (Bummer!) Hand Description of Payouts on your hands Example Straight Flush Payout of 40 to 1 on the Pair Plus Amount with Three cards of the same suit in sequence [8d-9d-10d] Three of a Kind Payout of 30 to 1 on the Pair Plus Amount with Three cards of equal rank [Ah-Ac-As] Straight Payout of 6 to 1 on the Pair Plus Amount with Three cards in sequence of mixed suits [7d-8s-9h] Flush Payout of 3 to 1 on the Pair Plus Amount with Three cards of the same suit [2s-6s-10s] Pair Payout of 1 to 1 on the Pair Plus Amount with Two cards of identical rank value [3d-3h-5c] High Card Payout of Nothing on the Pair Plus Amount when you do not even have a Pair [Qh-8d-6c]

This new Blackjack Basic (Playing) Strategy card for 4-8 Decks is a blackjack player's dream come true. The laminated, six-panel, tri-fold card with rounded corners devotes four panel sides to

covering the possible rule combinations of allowing or not allowing doubling down after a split, and the dealer hitting or standing on soft 17. Thus the card contains four playing strategies to allow you to choose the correct playing strategy for the rules that are in effect where you play. The strategies display color-coded decision cells in addition to showing the text of the decision so you can choose which way you learn best. Also, each strategy panel is section-coded to facilitate learning the most important decisions first. Surrender is included among the decisions, and footnotes provide alternatives when decisions are not allowed. The 3.5" x 5" panel size makes possible larger text than on other strategy cards and three-letter (not confusing one-letter) decision abbreviations, yet the card still fits in your pocket. End panels, which contain slits, are designed to fold in both directions and to lay flat to make it easy for you to quickly refer to the strategy you wish to use. One panel contains a pithy, insightful discussion of the playing decisions to help new players learn how to play the game; another panel provides a table which shows the House Edge for each of four rule combinations. About 99% of blackjack players do not use the correct Basic Strategy. By using the Blackjack 6 · 7 · 8 Strategy Card, players will now be able to play almost even with the house. Blackjack 6-7-8 strategy cards are also available for 1 Deck, 2 Decks, and Counter (as in "Card Counter") Basic, 4-8 Decks. The titles of the four different cards are color-coded (red, purple, blue, and green) so you can easily and quickly distinguish one card from another.

 This book is for the Spider Solitaire player who plays at the four-suit level, wins less than 40%% of their games and wants to improve their win ratio.

It is assumed that the player plays a pure game, meaning they neither undo moves, nor restart games, nor reject games. However, one chapter explores how these three options might affect a player's win ratio.

Pinochle has many variations. It is hard to find a strategy manual

that addresses the way you play the game. This manual is for you if you play the four-card-pass-game using the following rules: \*You play with a single deck.\*You play with 4 players in two partnerships.\*Your point counters are Ace, King, and 10, and each is worth 1 point (or 10).\*Your minimum opening bid is 25 (or 250).\*The auction winner (declarer) chooses the trump suit.\*Declarer's partner passes 4 cards to declarer who looks at the cards before passing 4 back. Then meld is put down.\*You use basic meld scoring. No bonus for a third leg of a marriage or pinochle. No super bonus for a double trump marriage.This manual shows you how to determine the best bidding range for your hand. It is based on the mathematical probability that your partner will have the card(s) you need to boost your meld. You can use this bidding system even if your partner doesn't.Also introduced are simple but optional bidding conventions. These bids allow you to describe features of your hand to your partner. The Table of Contents identifies the strategic turning points that occur throughout the game. The text suggests ways to take advantage of the opportunities available to you at each point. Both new and experienced players will find many ideas to sharpen their play
