Stories of the Vikings Hachette Books

THE history of the Vikings is not, as you might think, the story of a band of sea-pirates who roved the seas in search of plunder. It is rather the story of a race of brave and hardy Northmen who became sea-rovers because the rights and the freedom which their fathers had cherished were being taken from them. Their fathers had lived on their own lands and had been freemen, but the sons were asked to become king's men and hold their land only at the king's pleasure. Rather than give up their ancient rights many of the Northmen became Vikings, and to them the sea-roving life was a noble one, full of high enterprise and ambition. It was no easy matter to become a member of a Viking band. Even a great chief, before he could be admitted, must prove his strength

and give an account of the deeds of wizard Gandalf, and prowess he had already done. Thus it was an honour to belong to a band of Vikings, an honour which spurred the lads of the North to bold deeds, to mighty feats, that they might be counted worthy to become members of one or another of the famous bands. It is of the customs and battles, of the lives and deaths of these wild Northmen that I have told you in this little book. As these men are, as you will hear, ancestors of our own, you will perhaps wish to know more about them than I have been able to tell you. If that is so, when you grow older, you can read the Sagas or histories of these Northmen which were written by the Skalds, or, as we would call them, the poets of those olden days. In these Sagas you will meet with many strange adventures and see many great battlefields which you will not find in this little book.

"Ottoman Arcadia: The Hamidian Expedition to the land of Tribal Roots, 1886" showcases, for the first time, a three-volume set of photographic albums that were prepared following a decree by Abd ü lhamid II and were eventually gifted to Otto von Bismarck, the chancellor of Germany. In 1886, Abd ü lhamid II commissioned more than a dozen photograph albums destined for the Y ı l d ı z Palace Library. They were the

result of an imperial decree that sent a documentary commission of court officials and artists to the earliest Ottoman settlements. Soon thereafter, three of these spectacular albums were gifted by the sultan to Bismarck, in commemoration of the political rapprochement between the two empires at the end of the 19th century. These albums later made their way into the Ömer M. Koç Collection in 2017 and they are the focus of ANAMED's exhibition curated by Bahattin Öztuncay, Ahmet Ersoy, and Deniz Türker. Ottoman Arcadia: The Hamidian Expedition to the Land of Tribal Roots (1886) contextualizes the expedition as a remarkable instance where photography a new visual technology of the 19th century was merged with historical narratives to reconstruct dynastic myths and tribal memory. The story of the world's largest, longest, and best financed scientific expedition of all time, triumphantly successful, gruesomely tragic, and never before fully told. The immense 18th-century scientific journey, variously known as the Second Kamchatka Expedition or the Great Northern Expedition, from St. Petersburg across Siberia to the coast of North America, involved over 3,000 people and cost Peter the Great over one-sixth of his empire's annual revenue. Until now recorded only in academic works, this 10-year venture, led by the legendary Danish captain Vitus Bering and including scientists, artists, mariners, soldiers, and laborers, discovered Alaska, opened the Pacific fur trade, and led to fame, shipwreck, and "one of the most tragic and ghastly trials of suffering in the annals of maritime and arctic history." Apsley Cherry-Garrard was one of the youngest members of Robert Falcon Scott's legendary expedition to Antarctica, the last man sent out to meet Captain Scott and his men in February 1912, when they were expected to return victorious any day from the South Pole. He embarked on his own epic journey into the Antarctic winter to collect eggs of the Emperor penguin. It was dark all the time, his teeth

shattered, and the tent blew away in the cold. "But we kept our tempers," he wrote, "even with God." After serving in the First World War, with zealous encouragement from his neighbor George Bernard Shaw, Cherry wrote the undisputed masterpiece of polar literature, *The Worst Journey in the World*. But as the years progressed, he faced a terrible struggle against depression and despair. Sara Wheeler's *Cherry* is the first biography of this great hero of Antarctic exploration, written with unrestricted access to his papers and with the full cooperation of his family.

"Your woman who accompanied you that long dangerous and fatiguing rout to the Pacific Ocean and back deserved a greater reward for her attention and services on that rout than we had in our power to give her at the Mandans." - William Clark in a letter to Sacagawea's husband "Ocean in view! O! The Joy!" - William Clark, journal entry dated November 7, 1805 It is the most fabled and storied journey in American history. From 1804-1806, the first expedition across the North American continent was commissioned by President Thomas Jefferson, who had recently bought a vast swath of territory from France. Though he knew he had bought a huge amount of land, Jefferson wasn't entirely sure of what he had bought, so he asked a team led by Meriwether Lewis and William Clark to traverse the continent until they reached the Pacific, studying everything from the ecology to geography along the way to get an understanding of the country's new region. Lewis and Clark would find far more than they bargained for. The 33 members who made the trip came into contact with about two dozen Native American tribes, many of whom helped the men survive the

journey. Though they suffered deaths on their way west, the group ultimately reached the Pacific coast and got back to St. Louis in 1806, having drawn up nearly 150 maps and giving America a good idea of much of what lay west. Sacagawea is one of the most famous Native American women in American history, and few played such a central role in the settlement of the West for the young nation. As a young woman who was married to a French trapper from Quebec, Sacagawea happened to be in the right place at the right time for the legendary Lewis and Clark expedition, which set off for the Pacific coast after President Thomas Jefferson negotiated the Louisiana Purchase with France. The young Shoshone girl acted as a guide and interpreter for the expedition, helping it safely travel thousands of miles west from North Dakota to the Pacific over unfamiliar ground and amongst unfamiliar peoples. Put simply, the expedition could not have succeeded without her. Sacagawea's role in the Lewis and Clark expedition made her a national figure, and she continued to be popularized in literature and even among groups advocating for women's rights. Sacagawea is still taught to every American in school and stands alongside Pocahontas as the most famous Native American women, even though few people knew much about her life aside from her role in the trek. For that reason, few truly know about her life, her tribe, or her death, the latter of which is still controversial. At the same time, given the history and conflicts between the United States and various Native American tribes during the 19th century, Sacagawea's role in helping the

nation push westward at the expense of Native Americans has taken on a more mixed and controversial character. Sacagawea and the Lewis & Clark Expedition profiles the lives, legends, and legacies of the famous explorers and their expedition, Along with excerpts from contemporary accounts, a bibliography an pictures of important people, places, and events, you will learn about the Lewis & Clark Expedition like you never have before, in no time at all. Area X has been cut off from the rest of the continent for decades. Nature has reclaimed the last vestiges of human civilization. The first expedition returned with reports of a pristine, Edenic landscape; the second expedition ended in mass suicide; the third expedition in a hail of gunfire as its members turned on one another. The members of the eleventh expedition returned as shadows of their former selves, and within weeks, all had died of cancer. In Annihilation, the first volume of Jeff VanderMeer's Southern Reach trilogy, we join the twelfth expedition. The group is made up of four women: an anthropologist; a surveyor; a psychologist, the de facto leader; and our narrator, a biologist. Their mission is to map the terrain, record all observations of their surroundings and of one another, and, above all, avoid being contaminated by Area X itself. They arrive expecting the unexpected, and Area X delivers—they discover a massive topographic anomaly and life forms that surpass understanding—but it's the surprises that came across the border with them and the secrets the expedition members are keeping from one another that change everything.

#### A Panegyric on Macarius

National Geographic Books

The tale begins over three-hundred years ago, when the Fair People—the goblins, fairies, dragons, and other fabled and fantastic creatures of a dozen lands—fled the Old World for the New, seeking haven from the ways of Man. With them came their precious jewels: diamonds, rubies, emeralds, pearls... But then the Fair People vanished, taking with them their twelve fabulous treasures. And they remained hidden until now... Across North America, these twelve treasures, over ten-thousand dollars in precious jewels in 1982 dollars, are buried. The key to finding each can be found within the twelve full-color paintings and verses of *THE SECRET*. Are you smart enough? *THE SECRET: A TREASURE HUNT* was published in 1982. The year before publication, the author and publisher Byron Preiss had traveled to 12 locations in the continental U.S. (and possibly

Canada) to secretly bury a dozen ceramic casques. Each casque contained a small key that could be redeemed for one of 12 jewels Preiss kept in a safe deposit box in New York. The key to finding the casques was to match one of 12 paintings to one of 12 poetic verses, solve the resulting riddle, and start digging. Since 1982, only two of the 12 casques have been recovered. The first was located in Grant Park, Chicago, in 1984 by a group of students. The second was unearthed in 2004 in Cleveland by two members of the Quest4Treasure forum.
