Anthony Brandt once wrote, "Other things may change us, but we start and end with the family." When it comes to Allen Blackwood, this quote rings painfully true. Allen has always been intrigued at the thought of discovering his family history. With no help from his mother - who never seems open to discuss her family back in Mississippi - Allen is able to pick up snippets of information over the years. Oddly, a strange secrecy surrounds a lot of his southern relatives - this is especially so when it comes to the mysterious Uncle Otis. Allen yearns to seek the truth, but never can find the time to go for a visit until, down on his luck, he decides to give up on his hand-to-mouth lifestyle in Virginia and sets out for Mississippi. With the hope of starting new and the chance to shine some light on the timeworn family mysteries; Allen sets out for Mississippi. In Mississippi, State Police Detective, Lashauna Trudeau, is working the double homicide of an elderly couple. Being a woman of color in the Deep South is a difficult obstacle to overcome by itself, but being a woman of color with a badge is a near impossible task for the average. Trudeau is anything but average. She succeeds with her sharp wit and a tenacious investigative style and her bulldog mentality soon puts her on the trail of a reclusive family with a long history of lawlessness. Diving deep into a nasty world full of drugs and bad men, Trudeau will stop at nothing to bring the murderer to justice. Allen's quest to reunite with his relatives proves to be more than he bargained for and his pursuit of learning the family history puts himself, and others in danger. As Allen begins to uncover the truth behind his family, he sinks deeper into a dangerous world. Detective Trudeau must find a way to identify the killer, and save Allen before he disappears completely - into the dark waters of the Whiskey Bayou.

Tom Cotter returns to troll through Detroit and discover long forgotten classics in Motor City Barn Finds. You won't believe some of the rides he finds. Detroit has been America's Motor City for decades. It's home to Ford, General Motors, and Chrysler, as well as numerous auto industry companies and specialty and speed shops. At the same time, it's the poster child for urban blight and dysfunction. It's truly a city of contrasts, which presented challenges and opportunities in equal measure to barn finder Tom Cotter. In Motor City Barn Finds, Cotter plies his trade in a locale rich with automotive history. Detroit's lost cars are abandoned in empty lots, resident in decrepit buildings, squirreled away in garages, and stashed in historic wrecking yards. Behind the wheel of his classic 1939 Ford Woodie, Cotter trolls the back streets and neighborhoods of this historic city looking for lost automotive gems accompanied by photographer Michael Alan Ross. As America's Motor City, Detroit is an emotional and historical mecca for car enthusiasts, capable of drawing hundreds of thousands of car people for events like Woodward Dream Cruise and attracting design-forward companies like Shinola. At the same time, it's intimidating to navigate, with numerous dodgy neighborhoods and risky abandoned factory sites. Add it all together and you have fascinating and intriguing

opportunities to dig for barn-find gold.

Discover the emerging science and engineering of System of Systems Many challenges of the twenty-first century, such as fossil fuel energy resources, require a new approach. The emergence of System of Systems (SoS) and System of Systems Engineering (SoSE) presents engineers and professionals with the potential for solving many of the challenges facing our world today. This groundbreaking book brings together the viewpoints of key global players in the field to not only define these challenges, but to provide possible solutions. Each chapter has been contributed by an international expert, and topics covered include modeling, simulation, architecture, the emergence of SoS and SoSE, net-centricity, standards, management, and optimization, with various applications to defense, transportation, energy, the environment, healthcare, service industry, aerospace, robotics, infrastructure, and information technology. The book has been complemented with several case studies—Space Exploration, Future Energy Resources, Commercial Airlines Maintenance, Manufacturing Sector, Service Sector, Intelligent Transportation, Future Combat Missions, Global Earth Observation System of Systems project, and many more—to give readers an understanding of the real-world applications of this relatively new technology. System of Systems Engineering is an indispensable resource for aerospace and defense engineers and professionals in related fields.

Transportation Network Companies and Taxis: The Case of Seattle is a modern economic case history and thorough analysis of the devastating impact of the transportation network company (TNC) industry (Uber and Lyft) on the taxicab industry in Seattle, Washington, beginning in 2014. The events that transpired and lessons learned are applicable to most large cities in North America, Europe and Australia. As the regulator of the taxicab and TNC industries in Seattle during this period, the author offers a unique insider perspective. The book also provides internal operating statistics on the TNC industry, which are available here for the first time. Despite the spectacular growth of the TNC industry, growth rates have steadily declined and may fall to zero by 2019 or 2020, while the taxicab industry appears to have begun a modest recovery. This book offers a thorough explanation of how and why this decline has happened. It explains the taxicab industry, economic deregulation, competitive market failure, market disruption, price elasticity of demand and other concepts. There is also a wealth of data, computations and analysis for the specialized reader. This book considers the past, present and future of the taxicab and TNC industries in Seattle. It is recommended for both the general reader and industry professionals.
