Webster's Dictionary lists the term showman as "a notably spectacular, dramatic, or effective performer." In the art of drag racing, Hubert Platt checked all boxes. Known as the "Georgia Shaker," Platt cut his motoring teeth on the long straightaways and twisty back roads of South Carolina while bootlegging moonshine. After a run-in with the law in 1958, Platt transferred his driving skills from illegal activity to sanctioned drag racing and began one of the most dominant runs in drag racing history until his retirement in 1977. After stints in 1957, 1938, and 1962 Chevrolets, Platt's next ride was a Z11 Impala, which carried his first "Georgia Shaker" moniker. Once Chevrolet pulled out of sanctioned racing, Platt found a new home with Ford for 1964 and remained there until he hung up his helmet. Some of the cars he campaigned became icons in their own right. His factory-backed and personal machines included a 1963 Z11 Impala, 1964 Thunderbolt, 1965 Falcon, 1966 Mustang Funny Car, 1967 Fairlane 427, 1968-1/2 Cobra Jet, 1969 CJ Mustang, 1970 427 SOHC Mustang, and 1970 Boss 429 Maverick. A 1986 NHRA Hall of Fame member, Platt's lasting legacy on the sport can't be denied. Whether he was launching his Falcon with the door open, conducting a Ford Drag Team seminar, or posting low E.T. at the 1967 US Nationals in his Fairlane, Platt's imprint on drag racing was all-encompassing. His son and biggest fan, Allen Platt, shares his dad's iconic career in, Hubert Platt: Fast Fords of the "Georgia Shaker"!

[Mustang Forty Years](#) The Rosen Publishing Group, Inc

The Ford Boss Mustang is the most iconic pony car ever created, and this book covers it more extensively than any other. *Boss Mustang: 50 Years*—a fully expanded version of *Mustang Boss 302*—includes the complete history of its creation; racing and street histories of both the 302 and 429 models; and photos and interviews with Boss Mustang designers, engineers, racers, and more. Of all the legendary names in the history of the Ford Mustang, one stands apart: Boss. Originally created to homologate the new Boss 302 engine and option package for SCCA Trans-Am racing, the Mustang Boss 302 debuted for the 1969 model year and was built in limited numbers for the street through 1970. This book features never-before-seen production and racing photography, interviews with designers and engineers, and keen insight from author Donald Farr, a renowned Ford historian and Ford hall-of-fame inductee. Designed by the legendary Larry Shinoda, the Boss cars were easily distinguished from their less potent stablemates by their race-bred powerplant, standard front spoiler, and bold graphics. In 2012, Ford at long last revived this most revered of all Mustang models. With a new racing counterpart and a modern street version that delivers more than 440 horsepower, the Boss was truly back! In 2013, Ford rolled out the Boss one more time. In *Boss Mustang: 50 Years*, Mustang historian Donald Farr offers a complete history of the car—from its late 1960s origins in Ford's boardrooms through its Trans-Am successes and untimely demise in 1970, up to the conception and development of the spectacular, limited-edition 2012 and 2013 Boss Mustangs. Packed with brilliant photography and firsthand accounts from the people who created the original Boss, as well as the team that resurrected Ford's most iconic Mustang for the 21st century, this is the story every Mustang enthusiast has been waiting to read.

The Complete Book of Ford Mustang, 4th Edition details the development, technical specifications, and history of America's original pony car, now updated to cover cars through the 2021 model year. *Mustang* by Design Motorbooks

2017 Gold Medal Winner of the International Automotive Media Competition!

Uncover the captivating history of the highest-performance cars in America, illustrated with beautiful photography. The American muscle car began not in the factories of the big three automakers, but in the garages and dealerships of a hot-rod subculture bent on making the hottest, highest-performance cars on the street. *The Complete Book of American Muscle Supercars* catalogs these amazing cars, along with the builders who unleashed them on the American scene. From Michigan's Royal Pontiac dealership and the souped-up Royal Pontiac Bobcats they built and sold, to the new cars from such fabled names as Carroll Shelby, Mr. Norm's Grand Spaulding Dodge, Nickey Chevrolet, Don Yenke, George Hurst, Baldwin-Motion, Calloway, SLP, and Steve Saleen. This gorgeously illustrated book chronicles the outstanding contribution of the tuner/builder to American automotive history through the amazing machines they created. From the oldest of these muscle tuners commanding top dollar at today's classic-car auctions, to the latest vehicles by Ford and Chrysler, with their SVT and SRT divisions, this book gives readers a full and fascinating look at American high-performance in its purest form.

MUSTANGS! Over the centuries, mustangs have come in a number of different configurations. Some have had hooves. Some have had wings. But...horses and airplanes aside, the Mustangs that really hit like high-energy lightening bolts, were the ones produced and first released to a "car-hungry" nation by the Ford Motor Company in April, 1964. Television commercials, news magazine covers and high-energy radio ads created near-total, fever-pitch anticipation! Those unique and special first Generation One Mustangs were something almost transcendent, exhilarating and energizing for the U.S. car-buying public. Never before had Americans been given access to their own personal, sporty and classy "time machine" and certainly nothing like the new Mustang since the specialty rides of the 1930's and '40's! Fifty years of Mustangs, takes an in-depth look at the first five decades of this automotive icon with a literal, global following. If you're a Mustang fan, you'll find historic information on many of the full-size versions from the first half-century of production. But the truly unique aspect of this tome is that visually, *Fifty Years of Mustangs*' scale replicas provide a veritable cornucopia, running the full gamut of scales, eras shapes, colors and materials. As we'll see in this book, plastic model car kits have been quite prominent and prevalent for those 50 years. Whether it was AMT, MPC, IMC, Revell, Monogram, Pyro, Lindberg, Testors, Palmer, Ertl, Tamiya, Model King, Gunze Sangyo, Nitto Kagaku, USAirfix, Renwal or you name it and we can pretty much guarantee its existence at one time or another. Then for good measure, some resin kits and quality die cast examples have been included from such sources as Starter, Precision Miniatures, GMP, Danbury Mint and Automodello etc. for example. Considering the amazing quantity of Mustang scale model plastic kits, the numbers become truly overwhelming when we fold in all the other Mustang scale replicas (diecast, resin kits etc.) and the countless pieces of Mustang collectible memorabilia. The job of documenting the whole affair is quite challenging. Coming closest to that kind of effort might be *Mustang Collectibles* which I authored for Motor Books International back in 2002. But, then...just imagine all the brand-new stuff that's been produced in the years since then! Primarily, and much like the self-published "decade series" Harry Pristovnik and I have been generating recently (*The Nifty '50's & The Sizzlin' '60's*), this new 50th anniversary of the Ford Mustang book will cover the highlights from concept vehicles to the latest offerings just prior to going to press. Though it would be nearly impossible to provide photos and text about every item that's ever been available...we have made our best efforts here, to see that you experience as much of the "Mustang aura" as is possible...limited of course by just ink on paper. Whether you are a model car builder, model kit collector or mostly an accumulator of "Mustang stuff," we hope you'll find what "floats your boat" right here in these freshly printed pages.

Shelby Mustang details the entire story of these fantastic cars, from the early prototypes built in Shelby's Los Angeles shop to today's Ford-engineered high-tech performers. Written by one of the world's foremost authorities on Shelby automobiles, critically acclaimed author Colin Comer, and with a foreword by Lee Iacocca, the American automobile executive credited with the successful development of the Mustang, this is the definitive account of the Shelby. When Ford wanted to toughen up its super-successful new Mustang, they approached Carroll Shelby to give it the performance image it so sorely lacked. Beginning with a 1965 "K-Code" 289-cubic-inch-powered Mustang fastback, Shelby applied the same formula that had made his Cobra sports cars such devastating performers both on and off the track: more horsepower, less weight, balanced handling. The GT350 quickly established itself as a bonafide force in SCCA B-Production racing, twisting back roads, and boulevards alike—setting the course for future Shelby Mustangs, like the big-block GT500. Though those original Shelby Mustangs were done by 1970, Ford dusted off its Shelby relationship in 2006 and has been producing high-performance Ford Mustang Shelys ever since. This is a must-have read for any fan of American performance cars, whether you're a muscle-era original or a 21st-century stormer.

The Complete Book of Pontiac GTO gives you a year-by-year, model-by-model exploration of the world's first muscle car, all in full color photography, most of which has never been published. When Pontiac created the original muscle car—the GTO—it reshaped the automotive world like a four-inch piston going through a three-inch cylinder bore. Everything changed the moment John Zachery DeLorean and his crew of hot-rodding miscreants bolted a big engine into a smaller car and created the 1964 GTO. Make no mistake: DeLorean and his partners in crime were genuine outlaws. The GTO broke so many of General Motors' corporate rules that the people responsible should have been fired. And they would have been, except the car was a hit. *The Complete Book of Pontiac GTO* explores every iteration of the first car created specifically for baby boomers. With rare photography from the archives of Hot Rod and Motor Trend magazines, this book is the complete resource for fans of of the world's first muscle car. [Billboard](#) Motorbooks International

This is an in-depth look at all the Mustang models, including the anniversary and pace cars, and the specialty packages for street and competition driving that have made the Mustang an automotive legend. Don't miss out on the ultimate reference resource on America's best-loved pony car!

Mustang Boss 302 Motorbooks International

This is the muscle car history to own--a richly illustrated chronicle of America's greatest high-performance cars, told from their 1960s beginning through the present day! In the 1960s, three incendiary ingredients--developing V-8 engine technology, a culture consumed by the need for speed, and 75 million baby boomers entering the auto market--exploded in the form of the factory muscle car. The resulting vehicles, brutal machines unlike any the world had seen before or will ever see again, defined the sex, drugs, and rock 'n' roll generation. American Muscle Cars chronicles this tumultuous period of American history through the primary tool Americans use to define themselves: their automobiles. From the street-racing hot rod culture that emerged following World War II through the new breed of muscle cars still emerging from Detroit today, this book brings to life the history of the American muscle car. When Pontiac's chief engineer, John Z. DeLorean, and his team bolted a big-inch engine into the division's intermediate chassis, they immediately invented the classic muscle car. In those 20 minutes it took Bill Collins and Russ Gee to bolt a 389 ci V-8 engine into a Tempest chassis they created the prototype for Pontiac's GTO--and changed the course of automotive history. From that moment on, American performance cars would never be the same. American Muscle Cars tells the story of the most desirable cars ever to come out of Detroit. It's a story of flat-out insanity told at full throttle and illustrated with beautiful photography.

Ford Mustang Motorbooks

Just in time for the 40th anniversary of the Ford Mustang comes this first of its kind anthology of memoirs, stories, and reminiscences of one of Ford's most beloved models.

Ford Mustang 2015 Motorbooks International

The 2005 Mustang, to be released by Ford forty years after the original Mustang, will be both a departure and a return to tradition, as Ford steps away from the aging Fox chassis for its flagship car, yet brings back styling cues from the most popular Mustangs of the past. Ford found inspiration for the new Mustang from its 1967 Fastback model. The 2005 retro-look pony car will include a 4.6-liter, V-8 engine with 300 horsepower — the highest horsepower of any previously built Mustang. This book traces the new Mustang 's evolution from the drawing board to the production line to the street. A photographic celebration of the new car, this book delivers the inside story behind the rejuvenation of one of the most storied cars in automotive history.
