Soap star Don Diamont's most interesting storyline to date is being the real-life father and ringleader of his seven rambunctious boys. Called a "daytime deity" by Soap Opera Digest, Don Diamont is best known as the dashing publishing titan with steel abs, "Dollar Bill Spencer," on the most-watched daytime drama in the world, The Bold and the Beautiful. But all of that takes second place to his most important role to date: father to seven boys. By turns hilarious and poignant, My Seven Sons and How We Raised Each Other is a family memoir for our time. Don writes with openness and courage about the ways his family came together: by marriage, divorce, the death of his sister, and marriage again. Today's blended families might look different from the households of even a few decades ago, but the first dates, first cars, busting curfew, talking back, grounding, broken hearts, laughs, tears, and the love are the same. From his childhood growing up in LA, to his Zoolander phase as a model in both Paris and Los Angeles, to the iconic place he now occupies in daytime television, Don also gives us a glimpse into a life that at times could have been scripted for a soap opera. And, with brutal honesty, he tells of the personal devastation he suffered after the deaths of his father, brother, and sister. My Seven Sons is required reading for everyone who is a parent, and all those who have one.

Included in Backchannel's (WIRED.com) "Top Tech Books of 2017" An "important" book on the "pervasive influence of Silicon Valley on our economy, culture and politics." —New York Times How the titans of tech's embrace of economic disruption and a rampant libertarian ideology is fracturing America and making it a meaner place In The Know-It-Alls former New York Times technology columnist Noam Cohen chronicles the rise of Silicon Valley as a political and intellectual force in American life. Beginning nearly a century ago and showcasing the role of Stanford University as the incubator of this new class of super geeks, Cohen shows how smart guys like Jeff Bezos, Peter Thiel, Sergey Brin, Larry Page, and Mark Zuckerberg fell in love with a radically individualistic ideal and then mainstreamed it. With these very rich men leading the way, unions, libraries, public schools, common courtesy, and even government itself have been pushed aside to make way for supposedly efficient market-based encounters via the Internet. Donald Trump's election victory was an inadvertent triumph of the "disruption" that Silicon Valley has been pushing: Facebook and Twitter, eager to entertain their users, turned a blind eye to the fake news and the hateful ideas proliferating there. The Rust Belt states that shifted to Trump are the ones being left behind by a "meritocratic" Silicon Valley ideology that promotes an economy where, in the words of LinkedIn founder Reid Hoffman, each of us is our own start-up. A society that belittles civility, empathy, and collaboration can easily be led astray. The Know-It-Alls explains how these self-proclaimed geniuses failed this most important test of democracy.

Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs.
