Since the mid-1990s, the emergence of a hydrogen economy and the speed with which it will arrive have been vigorously debated. As a disruptive technology, dominant designs for the production, storage and distribution of hydrogen have not yet been established. Neither have performance characteristics been achieved to compete with the existing combustion engine, though the efficiency and durability of hydrogen fuel cells are improving. This publication highlights the uncertainties involved in making choices about hydrogen and fuel cells in planning the development policies on national energy, environment and transport sector.--Publisher's description.

Think Biblically! (Trade Paper) Haynes Manuals N. America, Incorporated

Now in paperback, this helpful volume by pastor and best-selling author John MacArthur guides readers in cultivating a biblical worldview on a wide range of issues. What we think shapes who we are. That's why the Bible tells us, "Do not be conformed to this world, but be transformed by the renewal of your mind" (Romans 12:2a). In a world of differing voices competing for our allegiance, we must learn to "think biblically" so we can distinguish good from evil. God is the Creator of this world; his

voice-his Word-must guide our thoughts and our lives. With the Bible in their hands, John MacArthur and other scholars and teachers from the Master's College confront the false worldviews that dominate our postmodern world. The authors provide models for cultivating a biblical mind-set on worship, psychology, gender, science, education, history, government, economics, and literature. This book will help anyone who is striving to think biblically in today's culture.

Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation Many 2011-12 automobiles have "chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade ago You can save \$2,000 by cutting freight fees and "administrative" charges Diesel annual urea fill-up scams can cost you \$300, including an \$80 "handling" charge for \$25 worth of urea Lemon-Aid's 2011-12 Endangered Species List: the Chinese Volvo, the Indian Jaguar and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and Suzuki
