Kiplinger's Personal Finance Dundurn Canada's automotive "Dr. Phil" says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar, a worldwide recession driving prices downward, and a more competitive Japanese auto industry that's still reeling from a series of natural disasters.

Atlas of Automobiles Dundurn

Volume One traces the history of Opel and

Vauxhall separately from inception through to the 1970s and thereafter collectively to 2015. Special attention is devoted to examining innovative engineering features and the role Opel has taken of providing global platforms for GM. Each model is examined individually and supplemented by exhaustive supporting specification tables. The fascinating history of Saab and Lotus begins with their humble beginnings and examines each model in detail and looks at why these unusual marques came under the GM Banner. Included is a

penetrating review of Saab through to its unfortunate demise. Volume Two examines unique models and variations of Chevrolet and Buick manufactured in the Southern Hemisphere and Asia but never offered in North America. Daewoo, Wuling and Baojun are other Asian brands covered in detail. This volume concludes with recording the remarkable early success of Holden and its continued independence through to today. Volume Three covers the smaller assembly operations around the world and the evolution of GM's export operations.

A brief history of Isuzu, Subaru and Suzuki looks at the three minority interests GM held in Asia. The GM North American model specifications are the most comprehensive to be found in a single book. Global and regional sales statistics are included. GM executives and management from around the globe are listed with the roles they held. An index ensures that these volumes serve as the ideal reference source on GM. Ebony Crooked Lane Books As U.S. and Canadian automakers and dealers face bankruptcy and/or unprecedented downsizing,

For Whom the Book Tolls Haynes Publications Stately oaks, ivy-covered walls, the opposite sex — these are the things that likely come to mind for most Americans when they think about the "nature" of college. But the real nature of college is hidden in plain sight: it ' s flowing out of the keg, it ' s woven into the mascots on our T-shirts.

Engaging in a deep and richly entertaining study of "campus ecology," The Nature of College explores one day in the life of the average student, questioning what "natural" is and what "common sense" is really good for and weighing the collective impacts of the everyday. In the end, this fascinating, highly original book rediscovers and repurposes the great and timeless opportunity presented by college: to study the American way of life, and to develop a

more sustainable, better way to live.

Popular Mechanics Dundurn
As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40

years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz -- rich cars, poor quality. There's only one Saturn you should buy. Toyota -- enough apologies: "when you mess up, 'fess up."
