*Environmental Hazards:
Classification of
Environmental ...*

There are four major
categories of this such
environmental hazards;
cultural, biological, physical
and chemical. Although many
cannot be avoided, forty
percent are caused directly
from human's poor choices.
(Wright and Boorse, 2011)

Cultural hazards are hazards that a person basically causes themselves by negative choices.

4 Types Of Environmental Hazards

Under the GHS, environmental hazards form one of three distinct hazard groups alongside physical and health hazards. The broad definition is used in the legal codes of governments such as the U.S. State of Maryland, and it includes such hazards as poor lighting, noise and vibration exposure, exposure to asbestos in buildings, and bacteria, fungi, and other biological hazards that may be ...

Four Categories of Environmental Hazards | HubPages

Environmental hazards incorporate physical and human elements of geographical research. Both are important to

understanding the nature of the events, their impacts, and any means for mitigation. The characteristics and impacts of Hurricane Katrina along the Gulf Coast of the United States, and in New Orleans in particular, are illustrative of this intersection of geographical themes.

What Is Environmental Health?
