Please note: This is a companion version & not the original book. Sample Book Insights: #1 To sum up the question, what is the difference between the Bible and other sacred texts. The answer is: The Bible is the Word of God. If you know that, you are halfway to understanding why Jesus said, He who does not listen to me [God] cannot have eternal life (John 5:24). The Old Testament prophets spoke God's Word to the people of Israel. God used a series of human authors to write down His Word.

The author of the Old Testament books of Isaiah, Jeremiah, and Ezekiel all lived around the same time. So, there is a fairly close connection between their books and the life, ministry, and teachings of Jesus Christ. The New Testament reflects the life and ministry of Jesus Christ himself. It was written by many different authors over a period of about thirty years. The books were also assembled into a final form around 100 AD. So, there is no single author or editor who can be identified as being behind every book that appears in the New Testament. So, when we look at the Bible, we see that it is the work of many human authors and editors who were each inspired by the Holy Spirit to write what they wrote. #2 The Bible is the Word of God. It was written by many different authors and editors who were each inspired by the Holy Spirit to write what they wrote. The Bible itself is a collection of sixty-six smaller books, or literary works, which claim the Holy Spirit as the ultimate authority and safeguard behind their writing. #3 The Bible is the Word of God. Fully grasp how every part of Scripture fits together to point to and reveal the glory of Christ Jesus. From beginning to end, the Bible reveals the glory of Jesus. But for many Bible readers, it doesn't seem that simple. We're often unsure how the Bible's many stories, characters, events relate together and connect to Jesus. Some are tempted to force the pieces of the Bible together, making superficial jumps to him. Others give up trying to understand the Bible altogether. Christ from Beginning to End is written to help Christians understand just how the different stories and parts of Scripture fits together to reveal the glory of Christ Jesus. In Part 1, Wellum and Hunter reintroduce us to the Bible—what it is, how it comes to us, and what it's centrally about. Then, in Part 2, they walk from one side of the Bible's story to the other, carefully tracing its storyline from Genesis to Revelation. As readers see how our triune God's plan unfolds through his covenants, they will be equipped for a lifetime of seeing Christ's glory in Scripture. From this book, you'll learn how to: Read the Bible according to the three biblical contexts: the immediate context, the context of the unfolding story, and the context of the whole story centered in Christ. Recognize how different parts of the Bible connect together as part of a unified story. Embrace the story of the Bible as our own, to live this story out, and to share this story with our neighbors and the nations. You will also see the Bible's multi-layered story and how it is held together by the one plan of God to glorify himself in salvation. You'll come away with a greater awareness of our need as sinners, of the triune God in all of his grace, and of Jesus as the incarnate Son in all of his glory. Interpreting Scripture with the Great Tradition Remedica This book is about making machine learning models and their decisions interpretable. “ Over a decade after its publication, one book on dating has people firmly in its grip. ” —The New York Times We already rely on science to tell us what to eat, when to exercise, and how long to sleep. Why not use science to help us improve our relationships? In this revolutionary book, psychiatrist and neuroscientist Dr. Amir Levine and Rachel Heller scientifically explain why some people seem to navigate relationships effortlessly, while others struggle. Discover how an understanding of adult attachment—the most advanced relationship science in existence today—can help us find and sustain love. Pioneered by psychologist John Bowlby in the 1950s, the field of attachment posits that each of us behaves in relationships in one of three distinct ways:

- Anxious people are often preoccupied with their relationships and tend to worry about their partner's ability to love them back
- Avoidant people equate intimacy with a loss of independence and constantly try to minimize closeness.
- Secure people feel comfortable with intimacy and are usually warm and loving.

Attached guides readers in determining what attachment style they and their mate (or potential mate) follow, offering a road map for building stronger, more fulfilling connections with the people they love.
