Intended as the primary text for introductory courses on medical anthropology, this book integrates human biological data relevant to health and disease with both evolutionary theory and the social environments that more often than not produce major challenges to health and survival.

Because students who

take this fastest-growing anthropology course come from a variety of disciplines (anthropology, biology, especially pre-med students, and health sciences, especially), the text does not assume anything beyond a basic high-school level familiarity with human biology and anthropology. The authors first

---

present basic biological information on a particular health condition and then expand their analysis to include evolutionary, historical, and cross-cultural perspectives. Among the topics covered are nutrition, infectious disease, stress, reproductive health, behavioral disease, aging, race/racism and health, mental

health, and healers and healing. McGraw-Hill's SAT I Bell Press Shareholder liability was once discussed only in terms of liability for the debts of the corporation in which the shareholders hold interest. That is now a shifting scene, influenced in the main by the emergence of shareholder activism and derivative litigation, with its attendant increase of risk for officers and directors, and "fee shifting" provisions in corporate bylaws, allowing corporations to seek legal fees from unsuccessful shareholder plaintiffs. In this

edition of the Comparative Law Yearbook for International Business, practitioners from 10 jurisdictions examine recent developments in shareholder liability. The introductory chapter "Liability of Shareholders in Modern Company Law", sets the stage for reports from Argentina, Belgium, Brazil, Croatia, Germany, Indonesia, Mexico, Portugal, and the United States.

Most people know that there are 70 million Baby Boomers in America today....but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have

no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too

much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. IGCSE English as a Second Language Penguin Following the Pulitzer prize-winning collection Stag ' s Leap, Sharon Olds gives us a

stunning book of odes. Opening with the powerful and tender " Ode to the Hymen, " Olds addresses and embodies, in this age-old poetic form, many aspects of love and gender and sexual politics in a collection that is centered on the body and its structures and pleasures. The poems extend parts of her narrative as a daughter, mother, wife, lover, friend, and poet of conscience that will be familiar from earlier collections, each episode and memory burnished by the wisdom and grace and

humor of looking back. In such poems as “ Ode to My Sister, ” “ Ode of Broken Loyalty, ” “ Ode to My Whiteness, ” “ Blow Job Ode, ” and “ Ode to the Last Thirty-Eight Trees in New York City Visible from This Window, ” Olds treats us to an intimate examination that, like all her work, is universal, by turns searing and charming in its honesty. From the bodily joys and sorrows of childhood to the deaths of those dearest to us, Olds shapes the world in language that is startlingly

fresh, profound in its conclusions, and life-giving for the reader.
