This format is designed to be read on color devices and cannot be read on black-and-white e-readers. In *Pumpkinheads*, beloved #1 New York Times bestselling author Rainbow Rowell and Eisner Award – winning artist Faith Erin Hicks have teamed up to create this tender and hilarious story about two irresistible teens discovering what it means to leave behind a place—and a person—with no regrets. Deja and Josiah are seasonal best friends. Every autumn, all through high school, they 've worked together at the best pumpkin patch in the whole wide world. (Not many people know that the best pumpkin patch in the whole wide world is in Omaha, Nebraska, but it definitely is.) They say good-bye every Halloween, and they 're reunited every September 1. But this Halloween is different—Josiah and Deja are finally seniors, and this is their last season at the pumpkin patch. Their last shift together. Their last good-bye. Josiah 's ready to spend the whole night feeling melancholy about it. Deja isn 't ready to let him. She 's got a plan: What if—instead of moping and the usual slinging lima beans down at the Succotash Hut—they went out with a bang? They could see all the sights! Taste all the snacks! And Josiah could finally talk to that cute girl he 's been mooning over for three years . . . What if their last shift was an adventure?

The book follows the two children as they embark on an adventure, which begins with the discovery of a hidden witch's haven in a graveyard and Jordan's first encounter with the spirit world - but by know means the first for Sebastian. Then a haunted observatory on the outskirts of town yields a clue - a piece of an intriguing map leading to, what they believe to be, hidden treasure. After collecting the rest of the clues from around the town, Jordan and Sebastian search for the treasure, but instead of rubies, emeralds and gold doubloons, they find themselves lead to a doorway into another world, called the Phantom Realm.

This book provides a political economy perspective on Chile's contemporary economic development, explaining the different stages of Chile's neoliberal pattern of economic integration into the global economy from 1973 to 2015. Three key explanatory variables are considered: the evolution of business-state relations, US geopolitical interest in the region through the waves of trade agreements, and the political impact of the dynamics of inflows and outflows of financial capital. Although Chile is typically considered to be a successful case of a free market economy, this book presents an alternative narrative of Chile's growth through using a Latin American Structuralist political economy perspective. While it recognises the positive results in terms of growth, it also emphasises the lack of dynamic sources for long-term development, which embeds the economy into short-term booms followed by periods of stagnation.

When it comes to their personal transportation, today's youth have shunned the large, heavy performance cars of their parents' generation and instead embraced what has become known as the "sport compact"--smaller, lightweight, modern sports cars of predominantly Japanese manufacture. These cars respond well to performance modifications due to their light weight and technology-laden, high-revving engines. And by far, the most sought-after and modified cars are the Hondas and Acuras of the mid-'80s to the present. An extremely popular method of improving vehicle performance is a process known as engine swapping. Engine swapping consists of removing a more powerful engine from a better-equipped or more modern vehicle and installing it into your own. It is one of the most efficient and affordable methods of improving your vehicle's performance. This book covers in detail all the most popular performance swaps for Honda Civic, Accord, and Prelude as well as the Acura Integra. It includes vital information on electrics, fit, and drivetrain compatibility, design considerations, step-by-step instruction, and costs. This book is must-have for the Honda enthusiast.

Safe Operation and Maintenance of Dry Dock Facilities is the first manual of practice to provide guidance for the operation of four main types of dry dock facilities: floating dry docks, graving docks, marine railways, and vertical lifts. Until now, some of these facilities have been operated and maintained without a thorough understanding of the design of their dry dock, and therefore the features that are vital to the safe operation of the facility. This manual is intended for commercial entities that operate one of the four dry docks discussed in this book. It will provide a cost-effective program for maintaining and operating a safe dry dock facility. This book examines in depth the four activities necessary to achieving this which include: condition assessment, maintenance, control inspection, and dock operations.

DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation.

Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

Through the voice of Mee Ali, readers experience the rhythms and rituals of life in rural Namibia in interconnected stories. In Oshaantu, a place where women are the backbone of the home but are expected to submit to patriarchal dominance, Mee Ali is happily married. Her friend, Kauna, however, suffers at the hands of an abusive husband. When he is found dead at home, many of the villagers suspect her of poisoning him. Backtracking from that time, the novel, with its universal appeal, reveals the value of friendships, some of which are based on tradition while others grow out of strength of character, respect, and love.
