You don't need to know every single thing about how the big 4 operate, but we focus you in on the key simple areas that will 10X your chances of being one of the top big 4 candidates. The format of the book is to first provide you with the question that will be asked in the interview. Then we provide the reason around why the big 4 ask that question. Then we give what a bad answer would be to the questions, and what a good answer would be. The reason we formatted the book this way is to help you understand the types of questions that you will be asked and why you are being asked those questions. There are too many times where I have interviewed candidates, and they answered with an inappropriate answer. They didn't respond inappropriately because they are stupid or bad people. They responded inappropriately because they didn't practice or no one taught them how to interview.

There are several categories that the big four public accounting firms like EY, Deloitte, PwC and KPMG test you on when they interview you. We try to cover as many of the categories as possible in this book. The big 4 interview questions are split into these categories. The skills that the top 4 accounting firms will test you on are:1.

A Textbook of Accounting for Management, 4th Edition Cambridge VCE Accounting Units 3 and 4

This book provides the reader with an opportunity to practice the double entry system of accounting. It contains 1000 practice questions. The solutions are provided for each question, along with an explanation, so that the student will be able to pinpoint exactly where any errors may have been made. These questions pertain to fictitious companies with revenues from services and sales. They include sales revenue, sales returns, various expenses, capital purchases, depreciation, dividend payouts, unearned revenue, and prepaid expenses. There are also practice questions for business loans, which include the posting of interest expense as well as the principal portion of the loan repayment. This book does not teach the theory, but instead, it is intended to allow students to practice what they have learned in their introductory accounting or introductory bookkeeping course.
