Can you
confirm,
that for a
4g93t (cm5a
gsr) engine,
to convert
to mivec one
simply puts
the 4g92
mivec head
onto the
4g93t block,
with a 4g94
cambelt. no

change of
pistons or
whatever is
required?
Then to run
this, an s-
afc fuel
trim/mivec
switch is
all that's
required?

Mitsubishi 4G92 Mivec Manual 5 Speed DOHC 16 Valve (Capacity 1.6) Fit well for Waja. Complete set with Body Parts, Rear Disc Brake and Fuel Tank.
[Mivec Owners Group • View topic - Helpful info](#)
probably not a good idea to supercharge or turbo charge a 4G92 mivec.. it has a Very high compression piston.. bad configuration

of the boost .. u might blown the engine.. unless u change piston.. hell lot of work .. and u lost one of the uniqueness off the mivec.. high compression..
