Cleaning of intake manifold can reduce gas consumption and smooth idling
Products J-Series - Isuzu Diesel Engines
The 4JJ1-TCS intercooled turbocharged engine was developed for ELF light duty trucks. In order to achieve fuel economy and cleaner exhaust emissions at a higher level, Isuzu developed this engine with its original cutting-edge technologies and created the world-class diesel with smaller displacement and super-turbocharging.
The RZ4E-TC is a 1.9L direct injection diesel powered, turbo intercooled engine which replaced the 4JK1-TCX found in Isuzu D-Max and Isuzu MU-X.
