This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future

war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

What does the girl who can make wishes come true give to the man who has everything? Andra Martineau is no ordinary young woman. She's a KI ê idouchos Propylaia (K-Pro for short), which means she has the unique ability to help certain people get exactly what they want. And Andra is good at her job--her clients have gone on to become a veritable who's who of the rich-and-famous. David Styles is an up-and-coming actor with everything going for him: looks, talent, and countless beautiful women vying for his attention. But when Andra turns up in his bed demanding to know what he wants, his perfect world starts to spiral out of control. And it's not just his reputation is on the line--what David doesn't know can certainly harm him, in ways he couldn't possibly begin to imagine. With the help of David's incorrigible costar, Andra begins to realize not only her own true nature, but David's hidden identity as well. Andra is forced to battle not only her attraction to David (and she never gets involved with clients), but the being within him that wants to take away everything she holds dear. As David continues to lose himself to the

"Messages, Signs, and Meanings can be used directly in introductory courses in semiotics, communications, media, or culture studies.

Additionally, it can be used as a complementary or supplementary text in courses dealing with cognate areas of investigation (psychology, mythology, education, literary studies, anthropology, linguistics). The text builds upon what readers already know intuitively about signs, and then leads them to think critically about the world in which they live - a world saturated with images of all kinds that a basic knowledge of semiotics can help filter and deconstruct. The text also provides opportunities for readers to do "hands-on" semiotics through the exercises and questions for discussion that accompany each chapter. Biographical sketches of the major figures in the field are also included, as is a convenient glossary of technical terms." "The overall plan of the book is to illustrate how message-making and meaning-making can be studied from the specific vantage point of the discipline of semiotics. This third edition also includes updated discussions of information technology throughout, focusing especially on how meanings are now negotiated through such channels as websites, chat rooms, and instant messages."--Jacket.

Being a gearhead matters. Much as we love reading about the latest hypercar or money-no-object custom project, we believe vehicles owned - and loved - by gearheads like us are just as meaningful, if not moreso. Our readers are self-made. We buy vehicles for specific reasons and we learn how to maintain, modify, and repair them ourselves. (With a little help from our friends, of course!) Everyone you meet in an issue of Gearbox Magazine is cool. If you

spotted them in a parking lot, you could walk right up to them and strike up a conversation. And chances are you might end up lifelong friends. We're not looking to get rich and forget our roots. We're trying to make a few bucks so we can spend more time helping gearheads build high performance machines & lives. This issue isn't perfect, but neither are our daily drivers. We hope you'll grab a copy and tell a couple friends about us. Thanks for checking us out. GBXM-united. Better living through busted knuckles.

For over 25 years Rob Siegel has written a monthly column called "The Hack Mechanic" for the BMW Car Club of America's magazine Roundel. In *Memoirs of a Hack Mechanic*, Rob Siegel shares his secrets to buying, fixing, and driving cool cars without risking the kids' tuition money or destroying his marriage. And that's something to brag about considering the dozens of cars, including twenty-five BMW 2002s, that have passed through his garage over the past three decades. With a steady dose of irreverent humor, *Memoirs of a Hack Mechanic* blends car stories, DIY advice, and cautionary tales in a way that will resonate with the car-obsessed (and the people who love them).

daredevil driving among teens has, over two decades, become a sanctioned sport, making its way across the Pacific through video games and magazines, anime and the Internet, to take root in California's fertile underground racing culture. Drifting tells the story of drifting from its arrival on the West Coast to its emergence as the hottest form of motorsport in the United States. A dramatic visual record of the sport in America that includes over 400 photos, the book also profiles the people, teams, techniques, web sites, publications, videos, and trends that have made drifting the phenomenon that it is today. For the curious newcomer, author Antonio Alvendia's introduction succinctly explains what drifting is, setting the stage for the thrilling automotive drama that then unfolds. For the veteran drifting fan, this book is the first illustrated book on the latest motorsport to conquer the world.

"Toy-Making at Home" by Morley Adams has been compiled with the assistance of Mr. Walter Higgins, the well-known instructor in woodwork. The volume fulfills a long-felt want in that it supplies fascinating amusement for evenings at home. The making of toys is an engrossing pastime, and the homemade toy is invariably more novel than the shop-bought article and of superior quality, besides which there is always satisfaction in "I made it myself." The purpose of the book is to give simple and easily understood instructions and plain diagrams and sketches for making toys from the odds and ends that are usually discarded as useless. Matches, Match Boxes, Cotton Reels, Cocoa Tins, Cigar Boxes, and even Egg Shells comprise the materials from which are evolved Shops, Working Models, Dolls' Furniture, Boats, Steam Engines, Windmills, and scores of

other toys dear to the hearts of boys and girls.

We 're told that the future will be brighter. But what if human happiness really lies in the past? Hobart, 2022: a city with a declining population, in the grip of a dark recession. A rusty ship sails into the harbour and begins to unload its cargo on the site of the once famous but now abandoned Gallery of Future Art, known to the world as GoFA. One day the city 's residents are awoken by a high-pitched sound no one has heard for two generations: a factory whistle. GoFA 's owner, world-famous billionaire Dundas Faussett, is creating his most ambitious installation yet. He 's going to defeat technology 's dominance over our lives by establishing a new Year Zero: 1948. Those whose jobs have been destroyed by Amazon and Uber and Airbnb are invited to fight back in the only way that can possibly succeed: by living as if the internet had never been invented. The hold of Bezos, Musk, Zuckerberg and their ilk starts to loosen as the revolutionary example of Factory 19 spreads. Can nostalgia really defeat the future? Can the little people win back the world? We are about to find out. ' Like Orwell, of whom he has written so brilliantly, Dennis Glover 's work is charged with courage, intelligence and purpose. He is the complete writer, and one made for our times. ' —Don Watson
