Alan Parsons' Art & Science of Sound Recording Consumer Guide Books

Launch! Advertising and Promotion is written for advertising and promotion courses taught to students in the business school and journalism & mass communication students. This textbook is the first of its kind to teach advertising concepts by reverse engineering a real advertising campaign from beginning to end. In April 2007, SS+K, an innovative New York City communications agency, launched the first ever branding campaign for msnbc.com with the tag "A Fuller Spectrum of News." Launch! follows that campaign from initial agency pitch through roll-out of print and media assets to post-campaign analysis. Throughout, it exposes readers to the theory and concepts of advertising and promotion, and the personalities and decisions that drove this campaign. The book takes a rare look "behind the curtain" - even letting you see some of the paths not chosen by the agency and client. Students get a realistic sense of how theory plays out in practice, and get a flavor for the exciting field of advertising and promotion. And, they consistently learn the perspectives of both the advertising agency (where many journalism and communications students will work) and the client (where many marketing majors will work). This is a unique book, with a unique perspective, by a unique author team, and you won't find this kind of insight in any other text on the market. We think you're going to love it! This textbook has been used in classes at: Ball State University, Emerson College, Florida Institute of Technology, Grand Valley State University, Johnson County Community College, Manchester Business School, McLennan Community College, Michigan State University, North Hennepin Community College, Pierce College, Rochester Institute of Technology, Saint Louis University, Salem State College, South Dakota State University, Texas State University, Texas Tech University, University of New Hampshire, University of North Carolina, University of Notre Dame, University of South Florida, Virginia Tech, Western Kentucky University.

Popular Mechanics Rosetta Books

This guide addresses the problem of loud car stereos, one of the most common sources of noise complaints in many jurisdictions. It begins by describing the problem and reviewing factors that contribute to it. The guide also identifies a series of questions that might assist you in analyzing your local problem. Finally, it reviews responses to the problem and what is known about these from evaluative research and police practice.

From Arthur's Seat Flat World Knowledge

The Big Scratch is a first novel by Peter DiTomaso that blends tongue in cheek excitement with the stylistic prose of a more sophisticated novel. Meet Nicky Paterson. He's an average guy, living an average life. His middle class existence in a suburban Connecticut town would be the envy of most until it all comes crashing down. A bitter divorce and custody trial made worse by his escalating addiction to alcohol sets Nicky on a course of personal destruction. Enter Tawny. She's a beautiful and mysterious girl who comes to Connecticut out of nowhere. She's a girl that takes Nicky's mind off the hell he's been through. But she's a girl with her own demons. On the run from her lover and maniacal west coast mob boss, Tawny entangles Nicky in a scheme to cheat the state lottery. It's a scheme that will change their lives forever. The Big Scratch is a story of everyday human existence intertwined with a fast paced plot, seasoned with just the right amount of sex, violence, mayhem, and human redemption. Contemporary references will keep the casual reader occupied without alienating the sophisticated reader wanting to deeply feel the emotional struggles of the main characters.

Ward's Automotive International McGraw-Hill/Irwin

How do the rich get rich? An updated edition of the "remarkable" New York Times bestseller, based on two decades of research (The Washington Post). Most of the truly wealthy in the United States don't live in Beverly Hills or on Park Avenue. They live next door. America's wealthy seldom get that way through an inheritance or an advanced degree. They bargain-shop for used cars, raise children who don't realize how rich their families are, and reject a lifestyle of flashy exhibitionism and competitive spending. In fact, the glamorous people many of us think of as "rich" are actually a tiny minority of America's truly wealthy citizens—and behave quite differently than the majority. At the time of its first publication, The Millionaire Next Door was a groundbreaking examination of America's rich—exposing for the first time the seven common qualities that appear over and over among this exclusive demographic. This edition includes a new foreword by Dr. Thomas J. Stanley—updating the original content in the context of the financial crash and the twenty-first century. "Their surprising results reveal fundamental qualities of this group that are diametrically opposed to today's earn-and-consume culture." —Library Journal

Heaven's Devil American Automobile Association

Baseball during the Great Depression of the 1930s galvanized communities and provided a struggling country with heroes. Jewish player Hank Greenberg gave the people of Detroit—and America—a reason to be proud. But America was facing more than economic hardship. Hitler's agenda heightened the persecution of Jews abroad while anti-Semitism intensified political and social tensions in the U.S. The six-foot-four-inch Greenberg, the nation's most prominent Jew, became not only an iconic ball player, but also an important and sometimes controversial symbol of Jewish identity and the American immigrant experience. Throughout his twelve-year baseball career and four years of military service, he heard cheers wherever he went along with anti-Semitic taunts. The abuse drove him to legendary feats that put him in the company of the greatest sluggers of the day, including Babe Ruth, Jimmie Foxx, and Lou Gehrig. Hank's iconic status made his personal dilemmas with religion versus team and ambition versus duty national debates. Hank Greenberg is an intimate account of his life—a story of integrity and triumph over adversity and a portrait of one of the greatest baseball players and most important Jews of the twentieth century. Popular Science St. Martin's Press

The only screenwriting book that includes a DVD that contains performances of the short films and screenplays that are featured in the book! The beauty and power of any story lies in its ability to connect to the reader, listener, or observer. Crafting Short Screenplays That Connect is the first screenwriting guide to introduce connection as an essential, although essentially overlooked, aspect of creating stories for the screen and of the screenwriting process itself. Written with clarity and humor, this book teaches the craft of writing short screenplays by guiding the student through carefully focused writing exercises of increasing length and complexity. Eight award-winning student screenplays are included for illustration and inspiration. The text is divided into three parts. Part one focuses on preparing to write by means of exercises designed to help students think more deeply about the screenwriter's purposes; their own unique vision, material and process; and finally about what screenplays are at their simplest and most profound level—a pattern of human change, created from specific moments of change—discoveries and decisions. Part two teaches students how to craft an effective pattern of human change. It guides them through the writing and re-writing of "Five (Not So Easy) Pieces"—five short screenplays of increasing length and complexity—focusing on a specific principle of dramatic technique: The Discovery, The Decision, The Boxing Match, The Improbable Connection, and The Long Short Screenplay. Part Three presents the five screenplays used throughout the book to illustrate the dramatic principles that have been discussed, and includes interviews with the screenwriters, a look at where they are now and what they are doing, and brief discussion of how each film evolved.

Road & Track

Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Crafting Short Screenplays That Connect

Common sense tells you that you would know if you were evil, but what about the freaking anti-christ? Quite ironically, my name is Faith, and up until a few days ago I was just a normal waitress working a dead end job just to get by. My life was going perfectly crappy just like everyone else, and my dumb ass had to go and screw it up looking for love. When a mysterious dating app installs itself onto my phone I cave and take the bait. Little do I know the four blind dates I'm matched with are actually the four horsemen of the apocalypse, and my life is turned upside down like the crosses they wear around their necks. I barely have enough time to process that angels and demons exist because every angel and their momma is descending from a corrupt heaven to kill me. Backed into a corner I'm left with two choices- try to plead my innocence to God and his army, or become the anti-christ they all think I am and build my own. Are good and evil really as black and white as they're trying to make them out to be?

Consumer Behavior
