In the Twentieth Century Albert Einstein and others made some astonishing discoveries. They showed us how our universe could start with a Big Bang which seems to allow something to appear from nothing, that Space can be curved and why there may have been a time when there was no Time. If you have always been absolutely baffled by anything related to Space-time then this book is for you. My writing mission is to engage with a new audience that has no previous knowledge of science, and I go to great lengths (without any equations) to make sure that everybody can fully understand my explanations. Unfortunately, Space-time has a reputation for being difficult. The first thing I will do is show that this claim is false. In this book nothing is too hard to understand and I will also encourage you to participate in the scientific process. Don't worry, you are not going to need your own laboratory; everything can be done in the comfort of your own home with Thought Experiments.

Slow Blind Drive is a conversation with the dead. A letter to an unlikely muse and a testament to the resilience of unconditional love. All at once haunting and horrific, erotic and endearing, this is the story of what it means to grow up a girl, to find solace in addiction, to have everything and give it away. It's a raw and sentimental account that follows a childhood friendship as it thrives and suffers through an intimate love, drug addiction, mental illness and betrayal. This is a story whose characters stay with you long after you've turned the last pages.

"If you walk into battle with [these] simple principles . . . you'll walk away with what you want and leave the other person happier for having done the deal." -Dave Ramsey, host of The Dave Ramsey Show and #1 New York Times bestselling author of The Total Money Makeover Negotiation impacts every aspect of our lives, from the deals we strike on the job, to our relationships with family members and neighbors, to the transactions we make as customers. Yet most people do anything they can to avoid negotiating-it makes them uncomfortable, nervous, even frightened. This plague of negotiaphobia is what Don Hutson and George Lucas are here to remedy. The key to the process is flexibility. Most books on negotiation preach one of two gospels: thou shalt collaborate or thou shalt compete. But no two negotiations are alike-one strategy cannot fit all. The One Minute Negotiator teaches you four viable strategies and shows how to choose the one best suited to the situation, your own inclinations, and the strategy being used by the other side. Besides the obvious benefits, conquering negotiaphobia will reduce your stress level. You'll never walk away thinking about what you should have asked for or might have gotten. Instead, with the tools Hutson and Lucas provide, you can confidently and consistently guide any negotiation to the best possible conclusion. "The One Minute Negotiator will reset your mindset to achieve the best outcomes in the toughest negotiations." -Harvey Mackay, author of the #1 New York Times bestseller Swim With the Sharks Without Being Eaten Alive "Hutson and Lucas have put in capsule form some of the best ideas on successful negotiations I have ever seen." -Darren Hardy, Publisher, Success magazine
