Common sense tells you that you would know if you were evil, but what about the freaking anti-christ? Quite ironically, my name is Faith, and up until a few days ago I was just a normal waitress working a dead end job just to get by. My life was going perfectly crappy just like everyone else, and my dumb ass had to go and screw it up looking for love. When a mysterious dating app installs itself onto my phone I cave and take the bait. Little do I know the four blind dates I'm matched with are actually the four horsemen of the apocalypse, and my life is turned upside down like the crosses they wear around their necks. I barely have enough time to process that angels and demons exist because every angel and their momma is descending from a corrupt heaven to kill me. Backed into a corner I'm left with two choices- try to plead my innocence to God and his army, or become the anti-christ they all think I am and build my own. Are good and evil really as black and white as they're trying to make them out to be?

Mini Down Under traces the history of one of New Zealand's - and the world's - best-loved cars. More versions of the Mini were available in New Zealand than anywhere else, and the launching of the iconic car in February 1960 was a larger-than-life event. In this lively and personal story, the author tracks the Mini's life in New Zealand, the connection between Kiwi racing driver Bruce McLaren and the birth of the Mini Cooper, the heady days of competition success in the Antipodes, the local assembly and marketing of the classic original car and the eventual development into the latest generation Mini for a new century.

Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

NATIONAL BESTSELLER "The Social Network, the much anticipated movie...adapted from Ben Mezrich's book The Accidental Billionaires." —The New York Times Best friends Eduardo Saverin and Mark Zuckerberg had spent many lonely nights looking for a way to stand out among Harvard University's elite, competitive, and accomplished student body. Then, in 2003, Zuckerberg hacked into Harvard's computers, crashed the campus network, almost got himself expelled, and was inspired to create Facebook, the social networking site that has since revolutionized communication around the world. With Saverin's funding their tiny start-up went from dorm room to Silicon Valley. But conflicting ideas about Facebook's future transformed the friends into enemies. Soon, the undergraduate exuberance that marked their collaboration turned into out-and-out warfare as it fell prey to the adult world of venture capitalists, big money, and lawyers.

Finalist for the 2022 Plutarch Award Longlisted for the PEN/Jacqueline Bograd Weld Award for Biography A Washington Post Best Book of 2021 "An elegant act of rehabilitation." —New York Times Book Review, Editors' Choice A "nuanced and insightful" (New Statesman) portrait of Britain's most famous female poet, a woman who invented herself and defied her times. "How do I love thee? Let me count the ways." With these words, Elizabeth Barrett Browning has come down to us as a romantic heroine, a recluse controlled by a domineering father and often overshadowed by her husband, Robert Browning. But behind the melodrama lies a thoroughly modern figure whose extraordinary life is an electrifying study in self-invention. Born in 1806, Barrett Browning lived in an age when women could not attend a university, own property after marriage, or vote. And yet she seized control of her private income, defied chronic illness and disability, became an advocate for the revolutionary Italy to which she eloped, and changed the course of cultural history. Her late-in-life verse novel masterpiece, Aurora Leigh, reveals both the brilliance and originality of her mind, as well as the challenges of being a woman writer in the Victorian era. A feminist icon, high-profile activist for the abolition of slavery, and international literary superstar, Barrett Browning inspired writers as diverse as Emily Dickinson, George Eliot, Rudyard Kipling, Oscar Wilde, and Virginia Woolf. Two-Way Mirror is the first biography of Barrett Browning in more than three decades. With unique access to the poet's abundant correspondence, "astute, thoughtful, and wide-ranging guide" (Times [UK]) Fiona Sampson holds up a mirror to the woman, her art, and the art of biography itself.

What does the girl who can make wishes come true give to the man who has everything? Andra Martineau is no ordinary young woman. She's a KI ê idouchos Propylaia (K-Pro for short), which means she has the unique ability to help certain people get exactly what they want. And Andra is good at her job--her clients have gone on to become a veritable who's who of the rich-and-famous. David Styles is an up-and-coming actor with everything going for him: looks, talent, and countless beautiful women vying for his attention. But when Andra turns up in his bed demanding to know what he wants, his perfect world starts to spiral out of control. And it's not just his reputation is on the line--what David doesn't know can certainly harm him, in ways he couldn't possibly begin to imagine. With the help of David's incorrigible costar, Andra begins to realize not only her own true nature, but David's hidden identity as well. Andra is forced to battle not only her attraction to David (and she never gets involved with clients), but the being within him that wants to take away everything she holds dear. As David continues to lose himself to the strengthening form within him, Andra navigates the jealousies of the film's director and David's would-be paramour in an effort to save him. She can make others' wishes come true... But can she grant her own? Funny, readable, and populated with a host of entertaining personalities, The K-Pro is a fast-paced contemporary fantasy with a paranormal twist.

An award-winning business writer dismantles the myths of entrepreneurship, replacing them with an essential story about the experience of real business owners in the modern economy. We're often told that we're living amidst a startup boom. Typically, we think of apps built by college kids and funded by venture capital firms, which remake fortunes and economies overnight. But in reality, most new businesses are things like restaurants or hair salons. Entrepreneurs aren't all millennials -- more often, it's their parents. And those small companies are the fabric of our economy. The Soul of an Entrepreneur is a business book of a different kind, exploring our work but also our passions and hopes. David Sax reports on the deeply personal questions of entrepreneurship: why an immigrant family risks everything to build a bakery; how a small farmer fights to manage his debt; and what it feels like to rise and fall with a business you built for yourself. This book is the real story of entrepreneurship. It confronts both success and failure, and shows how they can change a human life. It captures the inherent freedom that entrepreneurship brings, and why it matters.

The Reader's Companion to World Literature Motorbooks

This book covers the main topics that students need to learn in a course on Industrial Organization. It reviews the classic models and important empirical evidence related to the field. However, it will differ from prior textbooks in two ways. First, this book incorporates contributions from behavioral economics and neuroeconomics, providing the reader with a richer understanding of consumer preferences and the motivation for many of the business practices we see today. The book discusses how firms exploit consumers who are prone to making mistakes and who suffer from cognitive dissonance, attention lapses, and bounded rationality, for example and will help explain why firms invest in persuasive advertising, offer 30-day free trials, offer money-back guarantees, and engage in other observed phenomena that cannot be explained by the traditional approaches to industrial organization. A second difference is that this book achieves a balance between textbooks that emphasize formal modeling and those that emphasize the history of the field, empirical evidence, case studies, and policy analysis. This text puts more emphasis on the micro-foundations (i.e., consumer and producer theory), classic game theoretic models, and recent contributions from behavioral economics that are pertinent to industrial organization. Each topic will begin with a discussion of relevant theory and models and will also include a discussion of concrete examples, empirical evidence, and evidence from case studies. This will provide students with a deeper understanding of firm and consumer behavior, of the factors that influence market structure and economic performance, and of policy issues involving imperfectly competitive markets. The book is intended to be a textbook for graduate students, MBAs and upper-level undergraduates and will use examples, graphical analysis, algebra, and simple calculus to explain important ideas and theories in industrial organization.

At Dwell, we're staging a minor revolution. We think that it's possible to live in a house or apartment by a bold modern architect, to own furniture and products that are exceptionally well designed, and still be a regular human being. We think that good design is an integral part of real life. And that real life has been conspicuous by its absence in most design and architecture magazines.
