This volume is about Pope Francis, the diplomat. In his eight years of pontificate, Pope Francis as a peacemaker has propagated the ideas of human and divine cooperation to build a global human fraternity through his journeys outside the Vatican. This book discusses his endeavours to connect and develop a common peaceful international order between countries, faith communities, and even antagonistic communities through a

peaceful journey of human beings. The book analyses his speeches, and meetings as a diplomat of peace, including his visits to Cuba and the United States, and his mediations for peace in Colombia, Myanmar, Kenya, Egypt, Turkey, Jordan, Jerusalem, the Central African Republic, Sri Lanka, and Bangladesh. It discusses the role of Pope Francis as mediator in different circumstances through his own writings, letters, and Vatican documents; his encounters with world leaders; as well as his contributions to a universal understanding on inter-faith dialogue, climate change and the environment, and human migration and the refugee crisis. The volume also sheds light on his ideas on a post-pandemic just

social order, as summarised in his 2020 encyclical. A definitive work on the diplomacy and the travels of Pope Francis, this volume will be of great interest to scholars and researchers of religious studies, peace and conflict studies, ethics and philosophy, and political science and international relations. It will be of great interest to the general reader as well.

Japanese flower arrangement is
much more than an elegant
amusement - it is an expression
of what the Japanese call *furyu*
- to turn away from strife, and
to lose oneself in the joys of
peace and nature. It is the
opposite of that other key
aspect of Japanese culture -
Bushido, the way of the
warrior. The virtues of Bushido
are persistence, fidelity,
endurance, bravery and activity
- those of *furyu* are subtlety,
gentleness, restraint and
repose. That they see no

inconsistency or contradiction
between these two ways of
living is one of the most
interesting characteristics of the
Japanese people. This volume
is a succinct and
comprehensive guide to the
history, theory and practice of
this exquisite art. It explains the
three fundamental forms of
Japanese flower arrangement -
Shin, Gyo and So, as well as
the proper arrangement of the
tokonoma, the alcove where the
flowers are displayed. It
explains how one has to 'see'
the expressions and emotions in
blossoms and branches to
achieve the most harmonious
combinations, and gives the
history of the art going back to
the Ashikaga Shogunate,
describing the two great
classical schools of Japanese
flower arrangement - the formal
(*rikkwa*) and the natural
(*nageire*) styles. It also deals
with two new schools - the
heaven-earthman (*ten-chi-jin*)
and literati (*bunjin-ike*) styles -
concluding with an illustrated
chapter on how to arrange
flowers. This is a book full of
timeless serenity and beauty.

Social Democracy is on
the back-foot, and
increasingly centre-left
political parties are
struggling to win office.
Bringing together a range
of leading academics and
experts on social

democratic politics and
policy, Why the left loses
offers an international,
comparative view of the
changing political
landscape, examining the
degree to which the centre-
left project is exhausted
and is able to renew its
message in a neo-liberal
age. Using case studies
from the UK, Germany,
Spain, France, Australia
and New Zealand
contributors argue that
despite different local and
specific contexts, the
mainstream centre-left is
beset by a range of
common challenges.
Analysis focuses on
institutional and structural
factors, the role of key
individuals, especially
party leaders, and the
atrophy of progressive
ideas in explaining why
the centre-left is currently
in retreat. Why the Left
Loses is aimed at
stimulating wider debate
about the fortunes of the
centre-left.

The Boys' Book of Submarines Policy Press I Will Survive is the story of Gloria Gaynor, America's "Queen of Disco." It is the story of riches and fame, despair, and finally salvation. Her meteoric rise to stardom in the mid-1970s was nothing short of phenomenal, and hits poured forth that pushed her to the top of the charts, including "Honey Bee," "I Got You Under My Skin," "Never Can Say Goodbye," and the song that has immortalized her, "I Will Survive," which became a #1 international gold seller. With that song, Gloria heralded the international rise of disco that became synonymous with a way of life in the fast lane - the sweaty bodies at Studio 54, the lines of cocaine, the indescribable feeling that you could always be at the top of your game and never come down. But down she came after her early stardom, and problems followed in the

wake, including the death of her mother, whose love had anchored the young singer, as well as constant battles with weight, drugs, and alcohol. While her fans always imagined her to be rich, her personal finances collapsed due to poor management; and while many envied her, she felt completely empty inside. In the early 1980s, sustained by her marriage to music publisher Linwood Simon, Gloria took three years off and reflected upon her life. She visited churches and revisited her mother's old Bible. Discovering the world of gospel, she made a commitment to Christ that sustains her to this day.

 As U.S. and Canadian

automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz – rich cars, poor quality. There's only one Saturn you should buy. Toyota – enough apologies: "when you mess up, 'fess up."
