IN LOVE WITH THE CAR takes a humorous look at the cult of the car. Mixing fact and fantasy with imaginative cartoons, it casts an irreverent eye over the mystique of car naming, the seduction of brand advertising and the history of some car manufacturers. Take a passenger seat, preferably in the back, and enjoy this motoring distraction without worrying about the road ahead.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public."

Edward Thatcher's 1919 book, "Making Tin Can Toys,"

provides instructions on how to construct toy trucks, boats, trains, and windmills, as well as trays, candlesticks, and biscuit cutters, all out of used tin cans. Thatcher, an instructor of Decorative Metal Working at Columbia University's Teachers College in New York City, made clever and durable creations using simple tools and an abundant material. His design methods were trial-tested by both 10-12 year olds and wounded World War I soldiers. The book includes over 100 helpful diagrams and black-and-white photographs.
