Recasting burnout as a crucial phase of service, *Building Resilience Through Contemplative Practice* uses real-world case studies to teach professionals and volunteers unique skills for cultivating resilience. Viewing service and burnout as interdependent throughout phases of stability, collapse, reorganization, and exploitation, the book uniquely combines elements of adaptive resilience theory with contemplative practices and pedagogies. Drawing on the author ' s extensive experience working at the intersection of service and contemplative practices, this is the first book to demonstrate how and why professionals and volunteers can reframe burnout as an opportunity for resilience-building service. User-friendly case studies provide tools, skills, and exercises for reconstructive next steps. Chapters address personal, group, and structural levels of service and burnout. Illuminating the link between adaptive resilience and burnout as a normal and useful phase of service, *Building Resilience Through Contemplative Practice* is a necessary resource for professionals and

volunteers across a wide range of service settings.

"At the time it was first published in 1962, it framed such an

urgent appeal to the American conscience that it actually prompted the creation of the Appalachian Regional Commission, an agency that has pumped millions of dollars into Appalachia. Caudill's study begins in the violence of the Indian wars and ends in the economic despair of the 1950s and 1960s. Two hundred years ago, the Cumberland Plateau was a land of great promise. Its deep, twisting valleys contained rich bottomlands. The surrounding mountains were teeming with game and covered with valuable timber. The people who came into this land scratched out a living by farming, hunting, and making all the things they need-including whiskey. The quality of life in Appalachia declined during the Civil War and Appalachia remained "in a bad way" for the next century. By the 1940s, 50s, and 60s, Appalachia had become an island of poverty in a national sea of plenty and prosperity. Caudill's book alerted the mainstream world to our problems and their causes. Since then the ARC has provided millions of dollars to strengthen the brick and mortar infrastructure of Appalachia and to help us recover from a century of economic problems that had greatly undermined our quality of life." -Print ed.

Fantasy takes a “ zany and very, very clever ” turn in the second Dance of Gods adventure from the author of Spell of Catastrophe (Kliatt). The port town of Oolsmouth used to be a quiet, peaceful trading city. But with Maximillian the Vaguely Disreputable, Shaa, the Great Karlini, and the Creeping Sword all about to converge there, it seems unlikely to stay that way. The usual power struggles—gods vs. mortals vs. gods-know-who in the everlasting Dance of Gods—are brewing in Oolsmouth, and tension is building. But the ship carrying Shaa and the Great Karlini into town has been hijacked, the Creeping Sword has already

missed the boat (literally), and Max has taken a detour to try to discover the secrets of a hopefully long-dead sorcerer. These delays have got everyone wondering: will they make it to Oolsmouth in time for the showdown? More importantly: do they want to? “ A lot of confusion, mayhem, action and adventure—but better yet, a sense of the humorous that doesn ’ t rely on puns. ” —Bakka Bookie Sheet “ Brenner writes in a quick-paced style which perfectly matches his plot twists . . . A book rich in people, places and complications and one which is enjoyable either by itself or in tandem with the first in the series. ” —Quantam

10TH ANNIVERSARY EDITION Is the financial plan of mediocrity -- a dream-stealing, soul-sucking dogma known as "The Slowlane" your plan for creating wealth? You know how it goes; it sounds a lil something like this: "Go to school, get a good job, save 10% of your paycheck, buy a used car, cancel the movie channels, quit drinking expensive Starbucks mocha lattes, save and penny-pinch your life away, trust your life-savings to the stock market, and one day, when you are oh, say, 65 years old, you can retire rich." The mainstream financial gurus have sold you blindly down the river to a great financial gamble: You've been hoodwinked to believe that wealth can be created by recklessly trusting in the uncontrollable and unpredictable markets: the housing market,

---

the stock market, and the job market. This impotent financial gamble dubiously promises wealth in a wheelchair -- sacrifice your adult life for a financial plan that reaps dividends in the twilight of life. Accept the Slowlane as your blueprint for wealth and your financial future will blow carelessly asunder on a sailboat of HOPE: HOPE you can find a job and keep it, HOPE the stock market doesn't tank, HOPE the economy rebounds, HOPE, HOPE, and HOPE. Do you really want HOPE to be the centerpiece for your family's financial plan? Drive the Slowlane road and you will find your life deteriorate into a miserable exhibition about what you cannot do, versus what you can. For those who don't want a lifetime subscription to "settle-for-less" and a slight chance of elderly riches, there is an alternative; an expressway to extraordinary wealth that can burn a trail to financial independence faster than any road out there. Why jobs, 401(k)s, mutual funds, and 40-years of mindless frugality will never make you rich young. Why most entrepreneurs fail and how to immediately put the odds in your favor. The real law of wealth: Leverage this and wealth has no choice but to be magnetized to you. The leading cause of poorness: Change this and you change everything. How the rich really get rich - and no, it has nothing to do with a paycheck or a 401K match. Why the guru's grand deity - compound interest - is an impotent wealth accelerator. Why the guru myth of "do what you love" will most likely keep you poor, not rich. And 250+ more poverty busting distinctions... Demand the Fastlane, an alternative road-to-wealth; one that actually ignites dreams and creates millionaires young, not old. Change lanes and find your explosive wealth accelerator. Hit the Fastlane, crack the code to wealth, and find out how to live rich for a lifetime.
