Aid guides steer the

confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz – rich cars, poor quality. There's only one Saturn you should buy. Toyota – enough apologies: "when you mess up, 'fess up." Lemon Aide Guide 2005 Intellichoice Incorporated Passenger cars, sport-utility

Jim Snertzbaum is an easy target for his middle school classmates. With a name like his and a short chubby physique, he might as well have the old 'kick me' sign taped to his back. Unlike most of the young people around him, Jim matures quickly in mind and body. He is motivated to improve himself by two things: A teacher who takes an interest in him

and the new kid that moves to town. He is already a financial success by the time he enters his junior year. When Jim steps on the football field that fall, he is laughed at by many of his peers and even by one of the coaches. It doesn't take long for the new improved Jim Snertzbaum to turn the animosity into admiration. Even his harshest critics have to admit that Jim, and his best friend Kat, are two of the finest high school players in the state.
