First published in 2004, it was Soth's first book and sold through three editions, establishing him as a leading light of contemporary photographic practice. Evolving from a series of road trips along the Mississippi river, America's iconic yet oft-neglected 'third coast', Soth's richly descriptive, large-format colour photographs present an eclectic mix of individuals, landscapes, and interiors. Sensuous in detail and raw in subject, the work elicits a consistent mood of loneliness, longing, and reverie. This MACK edition includes two photographs not published in the prior versions.

The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.
