This volume opens on 13 November 1802, when Jefferson is in Washington, and closes on 3 March 1803, the final day of his second year as president. The central issue of these months is the closing of the right of deposit at New Orleans, an act that threatens the economic wellbeing of Westerners. Jefferson asks his old

friend Pierre Samuel du Pont de Nemours to remind the French government of the strong friendship between the two nations. To disarm the political opposition, the president sends James Monroe, who is respected by the Federalists, to Europe as a special envoy to work with Robert Livingston in negotiating the dispute with France. Jefferson proposes a "bargain" that will result in the acquisition of the Louisiana Territory. In a confidential message to Congress, Jefferson seeks \$2,500 to send a small party of men to explore the Missouri River. Congress concurs, and Jefferson's secretary Meriwether Lewis will lead the expedition. Settling the boundaries with Native American lands is a major theme of the volume. In reality, "settling" results in major cessions of Indian lands to the American government. During the months of this volume Jefferson never leaves the capital, even for a brief sojourn at Monticello. He does, however, enjoy a visit of six weeks from his daughters and two of his grandchildren. They

participate in Washington society, capture the affection of Margaret Bayard Smith, and brighten Jefferson's days. What is the relevance of law to a world dominated by a hegemon? What is the relation between power and law at the international level? In this volume, these questions are approached based on a case study of relations between France and the Netherlands throughout the Revolutionary Wars. It shows that power and law are not isolated phenomena and that their relation is not as one-dimensional as it is commonly portrayed.

---

Law can be an instrument of power, while law poses a normative force even a superpower cannot ignore. Thereto, the case study sketches a context in which an international law based on sovereign equality could, to a large extent, be circumvented by exploiting crossborder factionalism, thus nuancing state-centric perspectives on international politics. *Studies in the History of International Law*, vol. 1 [Australian Journal of Pharmacy](#) Cengage Learning
