Handbook of US-Middle East Relations
A&C Black

Never have international relations between nations been so complex as in the current political climate. In this contemporary world international negotiation has become a combination of traditional diplomacy and

the modern framework of conferences, multi-party institutions and organizations such as the European Union. While this diplomacy has, in the past, existed to prevent national and international conflict, its scope has expanded to deal with other problems facing us on a global scale. As negotiation is the primary tool to resolve international conflict, an understanding of the methods and principles of international negotiation remains essential. Only this form of diplomacy can hope to answer the global challenges we will face in the twenty-first century. International Negotiation in the Twenty-First Century is an accessible examination of negotiation and diplomacy on an international scale and is the first publication to analyze this fundamental concept in a single volume.

This volume opens on 13 November 1802, when Jefferson is in Washington, and closes on 3 March 1803, the final day of his second year as president. The central issue of these months is the closing of the

right of deposit at New Orleans, an act that threatens the economic wellbeing of Westerners. Jefferson asks his old friend Pierre Samuel du Pont de Nemours to remind the French government of the strong friendship between the two nations. To disarm the political opposition, the president sends James Monroe, who is respected by the Federalists, to Europe as a special envoy to work with Robert Livingston in negotiating the dispute with France. Jefferson proposes a "bargain" that will result in the acquisition of the Louisiana Territory. In a confidential message to Congress, Jefferson seeks \$2,500 to send a small party of men to explore the Missouri River. Congress concurs, and Jefferson's secretary Meriwether Lewis will lead the expedition. Settling the boundaries with

Native American lands is a major theme of the volume. In reality, "settling" results in major cessions of Indian lands to the American government. During the months of this volume Jefferson never leaves the capital, even for a brief sojourn at Monticello. He does, however, enjoy a visit of six weeks from his daughters and two of his grandchildren. They participate in Washington society, capture the affection of Margaret Bayard Smith, and brighten Jefferson's days.

The Second World War in Yugoslavia is notorious for the brutal struggle between the armed forces of the Third Reich and

the communist-led Partisans. Less known is the fact that the two sides negotiated prisoner exchanges throughout the war. Under extraordinary circumstances, these early communications evolved into a formal exchange agreement centered on the creation of a neutral zone—quite possibly the only such area in occupied Europe—where prisoners were regularly exchanged until late April 1945, saving thousands of lives. The leadership on both sides used these points of contact to hold secret political talks, for which they were nearly branded as traitors by their superiors in Berlin and Moscow. *Parleying with the Devil* is the first comprehensive analysis of prisoner exchanges and the attendant contacts between the German occupation authorities and the Yugoslav Partisans.

Trifkovi? argues that prisoner exchange had a decisive influence on prisoner of war policies on both sides and helped reduce the levels of violence for which this theater of war became infamous. *Parleying with the Devil* reveals that these points of contact, contrary to some claims, did not lead to collusion between these two parties against other Yugoslav factions or the Western Allies.

International Negotiation in the Twenty-First Century Haynes Manuals N. America, Incorporated
Uninterrupted economic relations between England and Scandinavia were of vital importance to the maintenance and extension of the British Empire in the eighteenth century. Scandinavia supplied Britain with the

timber to build her ships, with iron for ship-fittings, armaments and industry, and with smuggled tea at low prices to keep her people content. Scandinavia also furnished merchant fleets as neutral carriers for British goods during the Seven Years War, thus fundamentally assisting Britain's war effort. In addition she represented a small but lucrative market for Britain who was herself the largest single market for Sweden and Norway, and for the tea obtained from China by the Scandinavian East India Companies. In this study, Dr Kent examines the organization and extent of the legitimate and the smuggling trades, the effect of war and neutrality upon them, and the legal and diplomatic

considerations which influenced economic enterprise and policies.
