Tom Cotter is the best-known barn-find collector-car expert working

today. Tom Cotter's Best Barn-Find Collector Car Tales pulls together his best barn find stories from America and around the globe. Tom Cotter bought his first barn find some 50 years ago and has never looked back. Over the proceeding decades, he has continued to unearth automotive gems, some of which reside in his garage and others found just for the pleasure of the hunt. Tom's passion for automotive archaeology has made him a nexus for other barn finders, whose stories he has collected for more

than 20 years. He's further expanded the scope of his passion as host for The Barn Find Hunter, a Hagerty-sponsored webcast with over 20 episodes now available. Tom Cotter's Best Barn-Find Collector Car Tales pulls together the very best stories from Cotter's previous books and adds several new tales, all of which are presented in this handsome hardcover edition. unexpected finds he and his barn-finding brethren have discovered. Consumer Behavior Haynes Publications Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some

automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's

also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.
