**Transportation Energy Data Book** The patrol vehicles used by Special Operations Forces in Afghanistan and Iraq vary quite dramatically between the theatres as well as amongst the Coalition members, and have been developed and upgraded to meet the demands of the deployment. Covering all the major Coalition nations, Leigh Neville continues

his look at the elite forces deployed in Operations Enduring Freedom and Iraqi Freedom, with this analysis of their vehicles. Tracing the evolution of the vehicle types, from their historical precedents, through their designs to their operational developments, he discusses their advantages and disadvantages, along with their tactical employment. From the mine-protected vehicles used to counter the IED threat in Iraq, the use of Strykers as armoured raiding platforms by the US Rangers, to the civilian vehicles adapted for military service by both Coalition troops and Private Military Contractors in the regions, this book uses rare in-theatre photographs and colour artwork to show the variety and inventiveness of the patrol vehicles being used in combat today.

WALNECK'S CLASSIC CYCLE TRADER, MAY 2002

In 1989, Charles Gordon wrote a book about the joys of life at the cottage called, well, At the Cottage. It was a huge success, selling thousands of copies every year since then. A copy sits, dog-eared and smeared with sunscreen, in every cottage worthy of the name, right beside the bird book with the missing pages. Now, showing the same creative spirit when it comes to names, comes Still at the Cottage. Readers will be surprised to learn that some things have changed in cottage country, which is now real estate. Suburbanism proceeds apace; the store at the dock now stocks lawncare items (this is bad). But it also stocks more fruits and vegetables (this is good). Gordon pokes affectionate fun at the surprising new technology available to people heading for the simple life at the cottage. He even proposes a solution to solve neighbour conflicts: some lakes should be zoned as napping lakes, others as jet ski lakes, others possibly as jerk lakes, and so on. Monster cottages may gobble up rocks and trees, and traffic on and to the lake may be much worse. But this book, like the slap of the screen door, will remind you instantly why the cottage is a special place that needs a copy of this very funny book.
