Finally a statistics text that not only does a great job covering statistical tools but also focuses on software and the use of the internet for statistical work! Unlike most current texts which merely add screen shots, the Kohler text has been designed around the integration of popular statistical software and the use of the internet so that readers receive thorough preparation with these tools. The book also provides a great deal of flexibility for designing your course

sequence through its applications approach where students will learn when to use certain techniques and how to interpret results to help in decision making, its modern approach giving a thorough integration of computer use, and a modular writing style.
