Porsche Boxster Veloce Publishing Ltd
This illustrated history chronicles electric and hybrid cars from the late 19th century to today's fuel cell and plug-in automobiles. It describes the politics, technology, marketing strategies, and environmental issues that have impacted electric and hybrid cars' research and

development. The important marketing shift from a "woman's car" to "going green" is discussed. Milestone projects and technologies such as early batteries, hydrogen and bio-mass fuel cells, the upsurge of hybrid vehicles, and the various regulations and market forces that have shaped the industry are also covered.

Good and Cheap St Martins Press
MGF and TF Restoration Manual provides the MGF or TF owner with a complete workshop guide to mechanical and body restoration for the cars. With the MGF in production between 1995 and 2001, and the MG TF until 2011, many of the cars have survived in a structurally and mechanically sound state, without the huge costs and complications of needing a complete body restoration that is so often the case with pre-1980 MGs. Topics covered include: Model overview and parts supply; Workshop safety information; Bodywork [external and subframes]; Trim [including hood problems and replacement]; All mechanical components [including head gasket replacement]; Electrical systems [including security systems]; Modification [cosmetic, mechanical and engine]. An essential and practical workshop guide for all owners of these attractive sports cars. Gives

instructions on minor repair and maintenance procedures and covers a full engine strip and rebuild. Covers workshop safety information, bodywork, trim, all mechanical components and much, much more. Features a number of different project cars. Superbly illustrated with approximately 1000 colour step-by-step photographs. Roger Parker is an acknowledged MGF and TS expert with years of restoration experience.

Fuel Economy Guide Birkhäuser

Time to flex your machine learning muscles! Take on the carefully designed challenges of the Machine Learning Bookcamp and master essential ML techniques through practical application. Summary In Machine Learning Bookcamp you will: Collect and clean data for training models Use popular Python tools, including NumPy, Scikit-Learn, and TensorFlow Apply ML to complex datasets with images Deploy ML models to a production-ready environment The only way to learn is to practice! In Machine Learning Bookcamp, you'll create and deploy Python-based machine learning models for a variety of increasingly challenging projects. Taking you from the basics of machine learning to complex applications such as image analysis, each new project builds on what you've learned in previous chapters. You'll build a

portfolio of business-relevant machine learning projects that hiring managers will be excited to see. Purchase of the print book includes a free eBook in PDF, Kindle, and ePub formats from Manning Publications. About the technology Master key machine learning concepts as you build actual projects! Machine learning is what you need for analyzing customer behavior, predicting price trends, evaluating risk, and much more. To master ML, you need great examples, clear explanations, and lots of practice. This book delivers all three! About the book Machine Learning Bookcamp presents realistic, practical machine learning scenarios, along with crystal-clear coverage of key concepts. In it, you'll complete engaging projects, such as creating a car price predictor using linear regression and deploying a churn prediction service. You'll go beyond the algorithms and explore important techniques like deploying ML applications on serverless systems and serving models with Kubernetes and Kubeflow. Dig in, get your hands dirty, and have fun building your ML skills! What's inside Collect and clean data for training models Use popular Python tools, including NumPy, Scikit-Learn, and TensorFlow Deploy ML models to a production-ready environment About the reader Python programming skills assumed. No previous machine learning

knowledge is required. About the author Alexey Grigorev is a principal data scientist at OLX Group. He runs DataTalks.Club, a community of people who love data. Table of Contents 1 Introduction to machine learning 2 Machine learning for regression 3 Machine learning for classification 4 Evaluation metrics for classification 5 Deploying machine learning models 6 Decision trees and ensemble learning 7 Neural networks and deep learning 8 Serverless deep learning 9 Serving models with Kubernetes and Kubeflow *Yoga Sequencing* Hachette UK **INCLUDES FREE APP WITH EXCLUSIVE DIGITAL CONTENT** Living The Supercar Dream is the ultimate supercar book created by Tim Burton - owner and creator of the hugely popular YouTube channel Shmee150. Engaging millions of followers through his infectious excitement, exclusive access and unparalleled knowledge of the supercar industry, Tim has created one of the biggest automotive channels in the world, sharing his adventures on a daily basis and filming the most amazing luxury cars in existence. In Living The Supercar Dream, he takes readers on a road trip across the globe, experiencing the most incredible locations

and the cars that have defined their landscapes. From driving the high-speed Bugatti Veyron 16.4 Grand Sport Vitesse across the German countryside to twisting down the mountain roads of the Alps in his Porsche Cayman GT4, driving Italian designer cars through the streets of Mediterranean cities to testing the limits of his McLaren 675LT on track in Portugal, Tim takes readers through the unique features of each car against the spectacular backdrops they were made for. Capturing Tim's honest and personal touch, this is the ultimate guide to the world's greatest high performance and luxury cars.

Hillclimbing & Sprinting ????????????

A hands-on attitude to architecture, trademark of the highly successful London-based practice Allford Hall Monaghan Morris, calls for more than the usual monograph. According to Iain Borden, Director of the Bartlett School of Architecture and author of this detailed guide to the practice of AHMM, it calls for something more like a manual. From Millenium Dome pavilion to medical centre and social housing for the Peabody Trust, from office building refurbishment to primary school and the Walsall bus station, the extraordinary diversity of the AHMM's projects

testifies to their creative energy, optimism and eagerness to experiment. AHMM: four architects with numerous awards to their name and a rapidly-growing international reputation for innovative, pragmatic and cost effective solutions. This publication presents their collected works, fully-detailed and with a wealth of illustrations. Both monograph and manual - because architecture is about more than appearances.
