Named after Elisa, the granddaughter of Lotus's owner at the time, Romano Artioli of Bugatti fame, the Lotus Elise was launched at the Frankfurt Show in 1995. In the subsequent twenty-five years it has not only established itself as the embodiment of what Lotus stands for, it retains a unique place in the international sports car market. No other manufacturer came up with a car to seriously rival the Elise, nor the Exige, in terms of handling dexterity on both road and racetrack, and it aptly characterizes the definition of a sports car. Written in Johnny Tipler's inimitable style this book includes a detailed evolution of the Elise and Exige, including full specification tables; interviews with key individuals involved in their design and development, including Richard Rackham, Gavan Kershaw, Neil Thomas, Russell Carr, Barney Hatt and Andy Pleavin; Elisa Artioli on her namesake, its past and future; motor sport adaptations and successes and finally, driving experiences on road and track. The production of the Elise and Exige was sustained through four corporate upheavals. Now in Geely ownership, the future for Lotus looks bright.

The Lotus 98T was the 1986-season, JPS-liveried F1 car driven by Ayrton Senna and team-mate Johnny Dumfries. Senna took eight podium positions, including two wins in the car, taking the fight to the superior McLarens and Williams. The 98T was one of the ultimate incarnations of an F1 car, powered by a Renault V6 turbo engine, which is conservatively estimated to have produced up to 1,300bhp at full boost.

Senna was mighty to behold at the wheel of the 98T - he took pole position at eight of the season's 16 races, with victories in Spain and Detroit, famously crossing the line alongside Nigel Mansell in Spain, to win by 0.014s. This Manual, extensively illustrated with both period photographs and technical illustrations and photographs of a recently restored car, provides a fascinating insight into the design, evolution, operation, maintenance and restoration of the Lotus 98T.
