Completely updated, this compilation of consumer complaints from the National Highway Traffic Safety Administration arms used car shoppers with the facts they need to purchase a reliable vehicle--and avoid ending up with someone else's problems. Consumer Reports 2002 iUniverse

Buying a car can be a smart idea - a car loses the lion's share of its value when it is driven off the new car lot, so why let someone else take that loss? But buyer beware: A used car is likely to need more repairs and may come with a short warranty or none at all. In addition, used cars may lack the latest safety features. That is

why it is so important for consumers to do extensive research so they can avoid all of the potential pitfalls of buying a used car. The auto experts at "Consumer Reports" have done the work for you and have compiled their extensive research and report their findings into the 2007 edition of USED CAR BUYING GUIDE. This fabulous tool will help steer any consumer who is in the market for a used car towards the better-performing and more reliable used car models and away from those models with a troubled past or substandard performance. Before consumers set foot on a used car lot, they should read all the valuable information provided in this book so they can be armed

with as much information as possible and the knowledge to make an educated choice. "Consumer Reports" knows cars and offers the most detailed and revealing used car reliability information available anywhere including: - Unbiased reviews of every major model from 1999 - 2006- Lists of the best and worst used vehicles and how to avoid a lemon - A checklist of what to look for when inspecting a used car- Best used cars for gas mileage- Tips on negotiating the best priceReliability, recalls and crash test information- Making sense of safety information -How to get the most money when trading in your current car The majority of this book is devoted to the profiles

of 264 cars, minivans, SUVs and trucks, presenting all major 1999-2006 models. Each profile contains a photo from the representative year, a write-up of the vehicle, reliability history, crash-test data, and the model years when key safety gear was added and when a major redesign was made.

Newsweek Dundurn Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Follow the exploits of a young Haitian

American from Lake Worth, Florida, with dreams of breaking free of the game and moving to Haiti for a normal life. Top 6 is a group of young Haitian Americans with dreams of becoming rappers. Their dreams are deferred when city officials, law enforcement, and the court system decide to finger them for crimes they didn't commit. Unjustly charged with the RICO act, these young men are fighting for their lives to beat a biased judicial system designed to incarcerate the poor from third-world countries. It will take a lot to overcome their profiles as violent drug lords. Jamal Pierre is from

the southside of Lake Worth, and he is fresh out of jail. He looks for his chance to break out of the game and reclaim his life. He wants to move his family back to Haiti, where they can live peacefully, out of harms way. But as he continues to be challenged by the constant drama with his rivals from the other side of town as well as the interest of a racist cop he realizes his chance to break free may be even more out of reach than he originally thought. Will he be able to make good on his promise to Brooklyn, his friend in jail, to get his family out while he can?
