5 minutes a day! Perfect for starting the day, engaging fast finishers, or reviewing skills.

Building Spelling Skills Grade 5 Daily Science

This little book is confined to very simple “ reading lessons upon the Form and Motions of the Earth, the Points of the Compass, the Meaning of a Map: Definitions. ” The shape and motions of the earth are fundamental ideas—however difficult to grasp. Geography should be learned chiefly from maps, and the child should begin the study by learning “ the meaning of map, ” and how to use it. These subjects are well fitted to form an attractive introduction to the study of Geography: some of them should awaken the delightful interest which attaches in a

child ’ s mind to that which is wonderful—incomprehensible. The Map lessons should lead to mechanical efforts, equally delightful. It is only when presented to the child for the first time in the form of stale knowledge and foregone conclusions that the facts taught in these lessons appear dry and repulsive to him. An effort is made in the following pages to treat the subject with the sort of sympathetic interest and freshness which attracts children to a new study. A short summary of the chief points in each reading lesson is given in the form of questions and answers. Easy verses, illustrative of the various subjects, are introduced, in order that the children may connect pleasant poetic fancies with the phenomena upon which “ Geography ” so

much depends. It is hoped that these reading lessons may afford intelligent teaching, even in the hands of a young teacher. The first ideas of Geography—the lessons on “ Place ” —which should make the child observant of local geography, of the features of his own neighbourhood, its heights and hollows and level lands, its streams and ponds—should be conveyed viva voce. At this stage, a class-book cannot take the place of an intelligent teacher. Children should go through the book twice, and should, after the second reading, be able to answer any of the questions from memory. Charlotte M. Mason

Trail Guide to U.S. Geography

Penguin

Shows how individuals are affected by, and respond to, economic, social, and political forces at all levels of scale: global,

regional and local. It offers an inclusive picture of people in a globalizing world - men, women, children, both mainstream and marginalized citizens - not as seen from a western perspective, but as they see themselves. Core topics of physical, economic, cultural, and political geography are examined from a contemporary perspective, based on authoritative insights from recent geographic theory and examples from countries from around the world.

Daily Fundamentals, Grade 2

Carson-Dellosa Publishing
180 Days of Geography is a fun and effective daily practice workbook designed to

help students learn about geography. This easy-to-use fourth grade workbook is great for at-home learning or in the classroom. The engaging standards-based activities cover grade-level skills with easy to follow instructions and an answer key to quickly assess student understanding. Each week students will explore a new topic focusing on map skills, applying information and data, and connecting what they have learned. Watch students build confidence as they learn about location, place, human-environment interaction, movement, and regions with these quick independent learning activities. Parents appreciate the teacher-approved activity books that keep their child engaged and learning. Great for homeschooling, to reinforce learning at school, or prevent learning loss over summer. Teachers rely on the daily practice workbooks to save them valuable time. The ready to implement activities are perfect for daily morning review or homework. The activities can also be used

for intervention skill building to address learning gaps.

Grammar Evan-Moor

It's tough to be an out-of-work princess. After her royal father decides to retire and become a wood carver, Princess Paulina has no idea what to do with herself. She can't survey the kingdom from her leaky cottage roof, and no one waves back when she proceeds through the town on her father's cart. When she hears that a neighboring queen is seeking a bride for her son,

Prince Drupert, Paulina sees her chance to get back to princessing. But it will take all her wit and determination to pass the Queen's tests. . . and in the end, maybe there are better fates than a royal marriage. Full of tongue-in-cheek references to stories like Rapunzel, Snow White, and the Princess and the Pea, this fractured fairy tale is an hilarious twist on traditional tales in which a young woman's practicality, good humor, and intelligence let her shape her own happy ending— with extra cheese and all the toppings

her heart desires.

Elementary Geography Scholastic Inc.

In *Daily Geography Practice, Grade 1*, 36 map lessons introduce basic geography skills and over 60 geography terms. What a perfect hands-on approach to geography instruction!
