Report Carson-Dellosa Publishing

Connect students in grades 5-8 with science using **General Science: Daily Skill Builders**. This 96-page book features two short, reproducible activities per page and includes enough lessons for an entire school year. It provides extra practice with physical, earth, space, and life science skills. Activities allow for differentiated instruction and can be used as warm-ups, homework assignments, and extra practice. The book supports National Science Education Standards.

Grammar Princeton University Press

Supplement your social studies curriculum with 180 days of daily geography practice! This essential classroom resource provides teachers with weekly geography units that build students' geography knowledge, and are easy to incorporate into the classroom. In a

world that is becoming more connected and globalized, 21st century students must have the skills necessary to understand their world and how geography affects them and others. Students will develop their map and spatial skills, learn how to answer text- and photo-dependent questions, and study the 5 themes of geography. Each week covers a particular topic and introduces students to a new place or type of map. The first two weeks consist of a mini-unit that focuses entirely on map skills. For additional units, students will study various places, and how culture and geography are related. With a focus on smaller-scale maps like town and city maps, students will learn: cardinal directions; use of a key/legend; how to identify landforms; rural vs. urban locations; natural resources; relative locations; and what is farther or nearer from a point. Aligned to state standards and National Geography Standards, this resource includes digital materials.

Kent State Scholastic Inc.

Supplement your social studies curriculum with 180 days of daily practice! This essential classroom resource provides teachers with weekly social studies units that build students' content-area literacy, and are easy to incorporate into the classroom. Students will analyze primary sources, answer text-dependent questions, and improve their grade-level social studies knowledge. Each week covers a particular topic within one of the four social studies disciplines: history, economics, civics, and geography. Aligned to the National Council for the Social Studies (NCSS) and state standards, this social studies workbook includes digital materials.

Maryland School Bulletin Scholastic Inc.
Magazine editor and single mother Amy Bickers was finally putting her life together after a long divorce when, on an August night in 2009, she witnessed the suicide of her ex-husband. In 2009, 36,909 suicides were reported in the United States. In the years since, that number has increased. In 2013, the most recent year for which statistics are available, there were 41,149 suicides reported in the U.S. Around the world, more than 800,000 people will die by suicide this year. It is said that each suicide intimately affects six friends and family members. A suicide every 13.7 minutes in the U.S. is tragically multiplied by six: six people who are called "survivors." The Geography of You and Me is a deeply personal and honest exploration of what came next: grief, post-traumatic stress, and healing. It is a journey filled with dark humor, rap songs by Ludacris, too much cursing, and a perfectly healthy fixation on George Clooney. The Geography of You and Me is ultimately a story of forgiveness and hope. Amy forgave her ex-husband almost immediately. The struggle after his death was to forgive herself and to find a way forward in an uncertain landscape. Every year, millions are faced with the complexities of grief and guilt in the wake of unexpected violence and death. This book is for anyone whose reality in the wake of tragedy has not matched up with the books, movies and television shows that tell us how we're supposed to feel and behave. This book is for anyone who is thrust by tragedy into a world they no longer recognize. The Geography of You and Me is for anyone who no longer knows where they stand when the world is turned upside down.

Wisconsin Journal of Education Test Taking

180 Days of Geography is a fun and effective daily practice workbook designed to help students learn about geography. This easy-to-use third grade workbook is great for at-home learning or in the classroom. The engaging standards-based activities cover grade-level skills with easy to follow instructions and an answer key to quickly assess student understanding. Each week students will explore a new topic focusing on map skills, applying information and data, and connecting what they have learned. Watch students build confidence as they learn about location, place, human-environment interaction, movement, and regions with these quick independent learning activities. Parents appreciate the teacher-approved activity books that keep their child engaged and learning. Great for homeschooling, to reinforce learning at school, or prevent learning loss over summer. Teachers rely on the daily practice workbooks to save them valuable time. The ready to implement activities are perfect for daily morning review or homework. The activities can also be used for intervention skill building to address learning gaps.
