The descent of the Huygens probe to the frozen surface of Saturn's moon, Titan, in 2005, marks a pinnacle achievement in space exploration - the most distant planetary landing ever made or presently foreseen. The Huygens probe's seven-year voyage through space (past Venus, Earth and Jupiter) attached to the Cassini orbiter, its arrival at Saturn and three-week dormant coast to Saturn's

moon, Titan, culminated in Huygens' hypersonic entry into Titan's atmosphere, 2.5-hour parachute descent, and continued operation for 72 minutes on the surface transmitting date back to Earth via the Cassini orbiter. Saturn has 62 confirmed orbiting moons, but Titan (which is larger than the planet Mercury) was chosen as a has two major components of Earth's atmosphere - nitrogen and oxygen - but the oxygen is was thought to be frozen as water ice within the body of the moon. If Titan received more sunlight, its atmosphere might well resemble that of a primitive Earth. The hope is that study of the data gathered about Titan will help us to understand how the Earth evolved, and possibly what led to the evolution of life. There are no specific rules to prepare for a GD. And no one knows what the topic of GD is going to be. This book includes topics that are likely to be put by the Group Testing Officer before the candidates to gauge their personality and leadership qualities. It will be a good idea to keep yourself abreast with topics from:

1. Current Affairs - Current Affairs is something that you have to be thorough with. Understand the recent crises affecting the world, latest developmental initiatives, and important national & global events.
2. Historical topics- Have a fair knowledge about the history of India and the world. Having historical information will help you cite examples and make references whenever needed.
3. Sports, Arts & Literature - In these topics, try to have a decent idea about what is popular, who are the leaders in each area, the latest that has happened in these areas.
4. Data crunching - Do familiarize yourself with important data. Throwing in some data if required in your GD will definitely create an impression among the assessors. Speak with a measure of confidence on the given topic; and secure the nod of the evaluator.

Now an Apple TV+ limited series, Wanted: The Escape of Carlos Ghosn The unprecedented rise and catastrophic fall of one of the world's most feared and admired business

executives—Carlos Ghosn—a remarkable story of innovation, hubris, alleged crimes, and daring international escape, as chronicled by two Wall Street Journal reporters.

Carlos Ghosn always wanted more. Born in the Amazon, raised by a well-off—if scandalized—family in Beirut, and educated in Paris, Ghosn rose to prominence at Michelin in the United States, Renault in France, and Nissan in Japan. Along the way he earned monikers of Le Cost Killer, for his incisive business savvy, and Mr. 7-Eleven, for the hours he devoted to his work. Initially

Ghosn thrived, becoming a poster boy for globalization and multinational corporations. Employees believed him to be among the greatest business minds of his generation, and the press hailed him a financial genius. The trouble started when Ghosn began to believe them. His power rose in tandem with an increasing certainty that he was underpaid and undervalued at his multiple posts. Executives grew unhappy with Ghosn's talk of a merger with Renault, calling his loyalty to Nissan into question. Resentments brewed, enough so that a group of Nissan executives set out to uncover the truth about the man who many throughout Nissan and Japan perceived as a savior. Eventually, Ghosn was accused of financial misconduct and arrested for a bevy of alleged crimes—all of which he vehemently denied. Yet even as he insisted his financial transactions were above board, Ghosn was planning an astounding escape, one that would either smuggle him out of Tokyo and back to his ancestral homeland of Lebanon; or land him in a Japanese prison for life. Drawing from intensive investigative reporting, and including never-before-seen insider details from key

players in Ghosn's life and the investigations into him, Nick Kostov and Sean McLain piece together this fallen icon's life and actions across the globe. Their sensational globetrotting adventure reveals the complexity of a man who watched for decades as contemporaries with far less talent amassed far greater wealth, and who took drastic measures to ensure he would finally get his due.
