Where Good Ideas Come from Simon and Schuster
What would happen if 40 million disabled citizens organized their vote and took

power in America? Shawn Casey O'Brien's literary memoir *For The Love Of Long Shots* looks at the off-beat, humane possibilities as a rag tag group of disabled rebels lay the groundwork for just such a bloodless, democratic revolution. From motivating millions to register and vote, to ending voter suppression and wholeheartedly encouraging the electorate to "lie to the polls" and then simply vote their conscience, *For The Love Of Long Shots* takes an irreverent, if not realistic, look at what ails American democracy today and how best to save it—one disabled vote at a time.

Ford FE engines, which were manufactured from the late 1950s all the way through the mid-1970s, were

designated as the large-displacement engines in the Ford lineup. FE means Ford Edsel, and reflects an era when Ford sought to promote the Edsel name. The design of these engines was implemented to increase displacement over its predecessor, the Y-Block engines of the previous decade. Early models were fairly modest in displacement, as were most big-blocks of the era, but they grew quickly to fill the needs of rapidly changing chassis requirements and consumer demand for

larger vehicles. As it grew, the FE engine performed admirably as a heavy passenger car and light truck engine. It also became quite accomplished in performance circles, winning the 24 Hours of Le Mans, as well as powering Ford's muscle car and drag racing programs in the mid- to late 1960s. In this book, you will learn everything you need to know to rebuild one of these legendary engines. CarTech's unique Workbench series format takes you step-by-step through the entire

rebuilding process. Covered are engine identification and selection, disassembly, cleaning, parts analysis and assessment, machine shop processes, replacement parts selection, re-assembly and start-up/break-in techniques. Along the way you find helpful tips on performance upgrades, trouble spots to look for, special tools required, and professional builder's tips. FE master, owner of Survival Motorsports, and veteran author Barry Rabotnick

shares all of his tricks and secrets on building a durable and reliable FE engine. Whether you are simply rebuilding an old truck for reliable service use, restoring a 100-point show car, or building the foundation for a high-performance street and strip machine, this book will be an irreplaceable resource for all your future FE engine projects. **Sign of Life** Pumpkin Seed Publishing

nig·gard·ly (adj.)
[nig´erd-le] 1. stingy, miserly; not generous 2. begrudging about spending or granting 3. provided in a meanly limited supply If you don't know the definition of the word, you might assume it to be a derogatory insult, a racial slur. You might be personally offended and deeply outraged. You might write an angry editorial or organize a march. You might even find yourself making national headlines In other words, you'd better know what the word means before you pour your energy into overreacting to it. That's the jumping-off point for this powerful directive from Pulitzer Prize-winning journalist and

bestselling author Karen Hunter. It's time for the black community to stop marching, quit complaining, roll up their collective sleeves, channel their anger constructively, and start fixing their own problems, she boldly asserts. And while her straight-talking, often politically incorrect narrative is electrifyingly fresh and utterly relevant to today's hot-button issues surrounding race, Hunter harks back to the wisdom of a respected elder—Nannie Helen Burroughs, who was ahead of her time penning *Twelve Things the Negro Must Do for Himself* more than a century ago. Burroughs's guidelines for successful living—from making

education, employment, and home ownership one's priorities to dressing appropriately to practicing faith in everyday life—teach empowerment through self-responsibility, disallowing excuses for one's standing in life but rather galvanizing blacks to look to themselves for strength, motivation, support, and encouragement. From our urban communities to small-town America, the issues Hunter is bold enough to tackle in *Stop Being Niggardly* affect us all. Refreshingly candid and challenging, certain to get people everywhere talking, this is the book that takes on race in a new—yet also historically revered and simply stated—way that can change lives,

both personally and collectively.

The death of a child
should never pre-
date that of their
parents. It's
happening far too
often more and more
in the current
generation. The
cause of the current
epidemic of
depression and teen
suicide will be
studied for decades
to follow. In the
present, we as
parents must open
our eyes, our ears,
our minds, and our
hearts to a
desperate situation.
The second leading
cause of death of
our young people is

suicide. When, during
your own youth did
you ever give serious
and pensive thought
to taking your own
life? Perhaps in a
fleeting moment when
you experienced sharp
pain of a love lost
or a word said, but
today, the option of
suicide is "on the
menu" of choices and
our youth talk about
that menu item daily.
We implore readers to
learn about this
taboo topic... "The

ensure it is not kept
a subject we don't
talk about, but
rather one we openly

against as informed

A member of the

world renowned Program on Negotiation at Harvard Law School introduces the powerful next-generation approach to negotiation. For many years, two approaches to negotiation have prevailed: the "win-win" method exemplified in *Getting to Yes* by Roger Fisher, William Ury, and Bruce Patton; and the hard-bargaining style of Herb Cohen's *You Can Negotiate Anything*. Now award-winning Harvard Business School professor Michael Wheeler provides a dynamic alternative to one-

size-fits-all strategies that don't match real world realities. *The Art of Negotiation* shows how master negotiators thrive in the face of chaos and uncertainty. They don't trap themselves with rigid plans. Instead they understand negotiation as a process of exploration that demands ongoing learning, adapting, and influencing. Their agility enables them to reach agreement when others would be stalemated. Michael Wheeler illuminates the

improvisational nature of negotiation, drawing on his own research and his work with Program on Negotiation colleagues. He explains how the best practices of diplomats such as George J. Mitchell, dealmaker Bruce Wasserstein, and Hollywood producer Jerry Weintraub apply to everyday transactions like selling a house, buying a car, or landing a new contract. Wheeler also draws lessons on agility and creativity from fields like jazz, sports, theater, and even military

science.

"When Jason Hanson joined the CIA in

2003, he never imagined by publisher. that the same tactics he used as a CIA officer for counter intelligence, surveillance, and protecting agency personnel would prove to be essential in every day civilian life. In addition to escaping handcuffs, picking locks, and spotting when someone is telling a lie, he can improvise a self-defense weapon, pack a perfect emergency kit, and disappear off the grid if necessary. He has also honed his "positive awareness" - a heightened sense of his surroundings that allows him to spot suspicious and potentially dangerous behavior - on the street, in a taxi, at the airport, when dining out, or in any other situation."--Provided

"It's been twenty years since 9/11. Two decades since the United States was attacked on home soil and embarked on twenty years of war. The enemy has been patient, learning, and

adapting. And the enemy is ready to strike again. A new president offers hope to a country weary of conflict. He's a young, popular, self-made visionary...but he's also a man with a secret. Halfway across the globe a regional superpower struggles with sanctions imposed by the Great Satan and her European allies, a country whose ancient religion spawned a group of ruthless assassins. Faced with internal dissent and extrajudicial targeted killings by the United States and Israel, the Supreme Leader puts a plan in motion to defeat the most powerful nation on earth."--Publisher's description.
