Sweet Freedom's Plains Alpha Books The Tartine Way — Not all bread is created equal The Bread Book "...the most beautiful bread book yet published..." -- The New York Times, December 7, 2010 Tartine — A bread bible for the home or professional bread-maker, this is the book! It comes from Chad Robertson, a man many consider to be the best bread baker in the United States, and co-owner of San Francisco's Tartine Bakery. At 5 P.M., Chad Robertson's rugged, magnificent Tartine loaves are drawn from the oven. The bread at San Francisco's legendary Tartine Bakery sells out within an hour almost every day. Only a handful of bakers have learned the techniques Chad Robertson has developed: To Chad Robertson, bread is the foundation of a meal, the center of daily life, and each loaf tells the story of the baker who shaped it. Chad Robertson developed his unique bread over two decades of apprenticeship with the finest artisan bakers in France and the United States, as well as experimentation in his own ovens. Readers will be astonished at how elemental it is. Bread making the Tartine Way: Now it's your turn to make this bread with your own hands. But this traditional narrative, no matter how alluring, falls short of the actual—and far more complex—reality of the overland trails. Among the diverse peoples who converged on the western frontier were African American pioneers—men, women, and children. Whether enslaved or free, they too were involved in this transformative movement.	Sweet Freedom’s Plains is a powerful retelling of the migration story from their perspective. Tracing the journeys of black overlanders who traveled the Mormon, California, Oregon, and other trails, Shirley Ann Wilson Moore describes in vivid detail what they left behind, what they encountered along the way, and what they expected to find in their new, western homes. She argues that African

Americans understood advancement and prosperity in ways unique to their situation as an enslaved and racially persecuted people, even as they shared many of the same hopes and dreams held by their white contemporaries. For African Americans, the journey westward marked the beginning of liberation and transformation. At the same time, black emigrants' aspirations often	came into sharp conflict with real-world conditions in the West. Although many scholars have focused on African Americans who settled in the urban West, their early trailblazing voyages into the Oregon Country, Utah Territory, New Mexico Territory, and California deserve greater attention. Having combed censuses, maps, government documents, and white overlanders' diaries, along with the few	accounts written by black overlanders or passed down orally to their living descendants, Moore gives voice to the countless, mostly anonymous black men and women who trekked the plains and mountains. Sweet Freedom's Plains places African American overlanders where they belong—at the center of the western migration narrative. Their experiences and

perspectives enhance our understanding of this formative period in American history. *Growing Gourmet and Medicinal Mushrooms* Currency The Los Angeles Times Bestseller A Tor.com Most Anticipated Book of 2019 A PureWow “Book We Can’t Wait to Read in 2019” A Bustle Nonfiction Book Coming Out In 2019 To Start Getting Excited About The Lady from the Black Lagoon uncovers the life and work of Milicent Patrick—one of Disney’s first female animators and the only woman in history to

create one of Hollywood’s classic movie monsters As a teenager, Mallory O’Meara was thrilled to discover that one of her favorite movies, *Creature from the Black Lagoon*, featured a monster designed by a woman, Milicent Patrick. But for someone who should have been hailed as a pioneer in the genre, there was little information available. For, as O’Meara soon discovered, Patrick’s contribution had been claimed by a jealous male colleague, her career had been cut short and she soon after had disappeared from film history. No one

even knew if she was still alive. As a young woman working in the horror film industry, O’Meara set out to right the wrong, and in the process discovered the full, fascinating story of an ambitious, artistic woman ahead of her time. Patrick’s contribution to special effects proved to be just the latest chapter in a remarkable, unconventional life, from her youth growing up in the shadow of Hearst Castle, to her career as one of Disney’s first female animators. And at last, O’Meara discovered what really had happened to Patrick after The

Creature's success, and where she went. A true-life detective story and a celebration of a forgotten feminist trailblazer, Mallory O'Meara's *The Lady from the Black Lagoon* establishes Patrick in her rightful place in film history while calling out a Hollywood culture where little has changed since.

Learn how to rebuild and modify the GM 4L80E transmission! As the successor to the venerable and popular Turbo Hydramatic 400 (TH400), the 4L80E was the next flag bearer in GM's line of automatic

transmissions. While serving as the smaller, lighter cousin to the 4L85E, the abundance of 4L80E transmissions manufactured between 1991 and 2013 ensures that these highly capable 4-speed overdrive units will be in service for years to come. Automatic transmissions are often seen as mysterious and overly complicated, but much of the guesswork has been simplified to its basic elements in this

easy-to-follow guide. This book covers the process of identifying the best versions, tearing down the 4L80E, rebuilding, reassembly, and troubleshooting. Upgrades that are available for the 4L80E, which is a popular topic among performance fans and transmission swappers, are also included. This detailed, step-by-step instructional manual is authored by racer and builder Eric McClellan.

Meticulous step-by-step photos of the rebuild process are featured along with torque specs and unique identification of all major and most minor components.
