National Fuel Gas code Table F4 or furnace Installation Instructions. In Canada, derate the unit 10 percent for elevations 2000 to 4500 ft above sea level. † Capacity in accordance with U.S. Government DOE test procedures. ‡ Airflow shown is for bottom only return-air supply.

I have a carrier furnace model #58sta090---12114 serial ...

The Base 80 is Carrier's entry-level, single-stage gas furnace. The series offer 80% AFUE and a compact size for easy installation. With a heating capacity of up to 154,000 BTUs per hour, the Carrier Base 80 uses a single-speed blower to distribute air evenly and with a consistent temperature.

Start by looking in your owner's manual or any other paperwork that came with your product. If you don't happen to have them handy, you'll also find the model number printed right on the unit. ... Water likely means the support base has shifted since installation and is no longer level. Consider sealing or insulating your ducts.
