A fascinating journey into the hidden psychological influences that derail our decision-making, *Sway* will change the way you think about the way you think. Why is it so difficult to sell a plummeting stock or end a doomed relationship? Why do we listen to advice just because it came from someone “important”? Why are we more likely to fall in love when there’s danger involved? In *Sway*, renowned organizational thinker Ori Brafman and his brother, psychologist Rom Brafman, answer all these questions and more. Drawing on cutting-edge research from the fields of social psychology, behavioral economics, and organizational behavior, *Sway* reveals dynamic forces that influence every aspect of our personal and business lives, including loss aversion (our tendency to go to great lengths to avoid perceived losses), the diagnosis bias (our inability to reevaluate our initial diagnosis of a person or situation), and the “chameleon effect” (our tendency to take on characteristics that have been arbitrarily assigned to us). *Sway* introduces us to the Harvard Business School professor who got his students to pay \$204 for a \$20 bill, the head of airline safety whose disregard for his years of training led to the transformation of an entire industry, and the football coach who turned conventional strategy on its head to lead his team to victory. We also learn the curse of the NBA draft, discover why interviews are a terrible way to gauge future job performance, and go inside a session with the Supreme Court to see how the world’s most powerful justices avoid the dangers of group dynamics. Every once in a while, a book comes along that not only challenges our views of the world but changes the way we think. In *Sway*, Ori and Rom Brafman not only uncover

rational explanations for a wide variety of irrational behaviors but also point readers toward ways to avoid succumbing to their pull. The Horn Book Guide to Children's and Young Adult Books Liguori Publications

A nonfiction investigation into masculinity, *For The Love of Men* provides actionable steps for how to be a man in the modern world, while also exploring how being a man in the world has evolved. In 2019, traditional masculinity is both rewarded and sanctioned. Men grow up being told that boys don’t cry and dolls are for girls (a newer phenomenon than you might realize—gendered toys came back in vogue as recently as the 80s). They learn they must hide their feelings and anxieties, that their masculinity must constantly be proven. They must be the breadwinners, they must be the romantic pursuers. This hasn’t been good for the culture at large: 99% of school shooters are male; men in fraternities are 300% (!) more likely to commit rape; a woman serving in uniform has a higher likelihood of being assaulted by a fellow soldier than to be killed by enemy fire. In *For the Love of Men*, Liz offers a smart, insightful, and deeply-researched guide for what we're all going to do about toxic masculinity. For both women looking to guide the men in their lives and men who want to do better and just don’t know how, *For the Love of Men* will lead the

conversation on men's issues in a society where so much is changing, but gender roles have remained strangely stagnant. What are we going to do about men? Liz Plank has the answer. And it has the possibility to change the world for men and women alike.

From renowned environmental and natural resource legal scholar Christine Klein, *Property: Cases, Problems, and Skills* is a comprehensive casebook that combines the core, doctrinal elements of a 1L Property course with larger, more nuanced social, environmental, and ethical perspectives. This book offers a versatile, middle position in the Property market: it is straightforward and tightly-organized while also avoiding oversimplification. *Property: Cases, Problems, and Skills* offers a wealth of doctrinal, policy, and theoretical subtleties for professors who want to probe deeper. It adopts a modern, skills-based approach to Property Law, and includes a balance of classic and new cases, narrowly-focused skills exercises (including advocacy, drafting, client interviewing/counseling, and negotiation), and selected statutory excerpts. Chapter review problems (with answers provided in the Appendix for student self-testing) and a host of other pedagogical features such as discussion problems that raise novel and modern challenges, “A Place to Start” doctrinal overview boxes, and “Reading Guide” boxes, aid student understanding and comprehension. A two-color interior breaks up text for easier reading, with judicious use of photographs, text boxes, and pedagogical diagrams. This clear and accessible casebook encourages students to engage with Property law’s complexity, ambiguity, and nuance.
New to the Second Edition: New Cases including: *Maui Electric Co.*, 408 P.3d 1 (Haw. 2017): Adopting a state constitutional property right to a clean and healthful environment *Adams v. Woodlands of Nashua*, 864 A.2d 322 (N.H. 2005): Distinguishing covenant of quiet enjoyment from implied warranty of

habitability *Obergefell v. Hodges*, 135 S. Ct. 2584 (2015): Holding the right to marry is a fundamental right inherent in the liberty of the person, and highlighting numerous property rights and protections available to spouses under state marital property systems In re Estate of Hanau (730 S.W.2d 663 (Tex. 1987): Introducing complexity of marital property systems in the context of spouses migrating from one state to another Restatement (Third) of Property, Servitudes: Stand-alone Restatement excerpt *Styller v. Aylward* (Mass. Land Ct. 2018): Considering whether short-term rentals, such as Airbnb, violate single-family zoning restrictions *Murr v. Wisconsin*, 137 S. Ct. 1933 (2017): Refining analysis of the “denominator issue” in a regulatory taking case involving a wild and scenic river Professors and students will benefit from: Tightly and clearly organized text, both substantively and visually, with a balance of new and classic cases A shorter page count than other Property casebooks that allows it to focus on the core, doctrinal aspects of Property law Visual aids including maps, diagrams, and photographs Text that clearly identifies the majority/minority/trend status of each rule, as relevant Chapter Reviews include concise post-case notes, multiple choice and essay questions (with answers in the Appendix), and “Bringing it Home” statutory practice (guiding students in researching their state’s statutory coverage of selected topics likely to be regulated by statute) “Reading Guide” boxes preceding cases to guide the students in extracting contextual meaning from cases A skills exercise in each chapter provides in-depth opportunities for students to develop skills related to the substantive material covered in the chapter A discussion problem in each chapter provides a rich factual context to facilitate further exploration of law and policy as applied to fresh, modern contexts Post-case notes include “Practice Pointers” asking students to re-draft ambiguous language in documents that precipitated litigation, to explore alternatives to litigation, and to advise clients on litigation strategy Notes on “The Place” convey background about the geographic location of the disputed property, designed to remind students that legal disputes can be influenced by physical and human context Relevant statutory and Restatement excerpts are collected and presented in one location within the chapter (rather than scattered in snippets throughout). Periodic statutory excerpts and exercises introduce students to the interplay of common law and statutory law “Test Your Understanding” sections contain problems that the professor can work through during class (with answers in the teacher’s manual), or that can be left to the students for self-directed learning

 New York Times bestseller *Business Book of the Year*--Association of Business Journalists
 From the New York Times bestselling author comes an eye-opening, urgent look at America's broken health care system--and the people who are saving it--now with a new Afterword by the author. "A must-read for every American." --Steve Forbes, editor-in-chief, *FORBES* One in five Americans now has medical debt in collections and rising health care costs today threaten every small business in America. Dr. Makary, one of the nation's leading health care experts, travels across America and details why health care has become a bubble. Drawing from on-the-ground stories, his research, and his own experience, *The Price We Pay* paints a vivid picture of the business of medicine and its elusive money games in need of a serious shake-up. Dr. Makary shows how so much of health care spending goes to things that have nothing to do with health and what you can do about it. Dr. Makary challenges the medical establishment to remember medicine's noble heritage of caring for people when they are vulnerable. *The Price We Pay* offers a road map for everyday Americans and business leaders to get a better deal on their health care, and profiles the disruptors who are innovating medical care. The movement to restore medicine to its mission, Makary argues, is alive and well--a mission that can rebuild the public trust and save our country from the crushing cost of health care.

Read a free excerpt here! American engineers have done astounding things to bend the Mississippi River to their will: forcing one of its tributaries to flow uphill, transforming over a thousand miles of roiling currents into a placid staircase of water, and wresting the lower half of the river apart from its floodplain. American law has aided and abetted these feats. But despite our best efforts, so-called “natural disasters” continue to strike the Mississippi basin, as raging floodwaters decimate waterfront communities and abandoned towns literally crumble into the Gulf of Mexico. In some places, only the tombstones remain, leaning at odd angles as the underlying soil erodes away. *Mississippi River Tragedies* reveals that it is seductively deceptive—but horribly misleading—to call such catastrophes “natural.” Authors Christine A. Klein and Sandra B. Zellmer present a sympathetic account of the human dreams, pride, and foibles that got us to this point, weaving together engaging historical narratives and accessible law stories drawn from actual courtroom dramas. The authors deftly uncover the larger story of how the law reflects and even amplifies our ambivalent attitude toward nature—simultaneously revering wild rivers and places for what they are, while working feverishly to change them into something else. Despite their sobering revelations, the authors’ final message is one of hope. Although the acknowledgement of human responsibility for unnatural disasters can lead to blame, guilt, and liability, it can also prod us to confront the consequences of our actions, leading to a liberating sense of possibility and to the knowledge necessary to avoid future disasters.

The New York Times Book Review

Natural Resources Law

The bestselling author of *No Logo* shows how the global “free market” has exploited crises and shock for three decades, from Chile to Iraq. In her groundbreaking reporting, Naomi Klein introduced the term “disaster capitalism.” Whether covering Baghdad after the U.S. occupation, Sri Lanka in the wake of the tsunami, or New Orleans post-Katrina, she witnessed something remarkably similar. People still reeling from catastrophe were being hit again, this time with economic “shock treatment,” losing their land and homes to rapid-fire corporate makeovers. *The Shock Doctrine* retells the story of the most dominant ideology of our time, Milton Friedman’s free market economic revolution. In contrast to the popular myth of this movement’s peaceful global victory, Klein shows how it has exploited moments of shock and extreme violence in order to implement its economic policies in so many parts of the world from Latin America and Eastern Europe to South

Africa, Russia, and Iraq. At the core of disaster capitalism is the use of cataclysmic events to advance radical privatization combined with the privatization of the disaster response itself. Klein argues that by capitalizing on crises, created by nature or war, the disaster capitalism complex now exists as a booming new economy, and is the violent culmination of a radical economic project that has been incubating for fifty years.

The characters and the challenges they face are wholly realized and moving; their journeys span a wide spectrum of emotion and it is impossible

not to root for [them].” —Alexandra Chang, New York Times Book Review It’s Holy Week in the small town of Las Penas, New Mexico, and thirty-three-year-old unemployed Amadeo Padilla has been given the part of Jesus in the Good Friday procession. He is preparing feverishly for this role when his fifteen-year-old daughter Angel shows up pregnant on his doorstep and disrupts his plans for personal redemption. With weeks to go until her due date, tough, ebullient Angel has fled her mother’s house, setting her life on a startling new path. Vivid, tender, funny, and beautifully rendered, *The Five Wounds* spans the baby’s first year as five generations of the Padilla family converge: Amadeo’s mother, Yolanda, reeling from a recent discovery; Angel’s mother, Marissa, whom Angel isn’t speaking to; and disapproving Tíve, Yolanda’s uncle and keeper of the family’s history. Each brings expectations that Amadeo, who often solves his problems with a beer in his hand, doesn’t think he can live up to. *The Five Wounds* is a miraculous debut novel from a writer whose stories have been hailed as “legitimate masterpieces” (New York Times). Kirstin Valdez Quade conjures characters that will linger long after the final page, bringing to life their struggles to parent children they may not be equipped to save.
