McGraw-Hill Education
The Everyday Mathematics (EM) program was developed by the University of Chicago School

Mathematics Project (UCSMP) and is now used in more than 185,000 classrooms by almost three million students. Its research-based learning delivers the kinds of results that all school districts aspire to. Yet despite that tremendous success, EMOften leaves parents perplexed. Learning is accomplished not through rote memorization, but by actually engaging in real-life math tasks. The curriculum isn't linear, but rather spirals back and forth, weaving concepts in and out of lessons that build overall understanding and long-term retention. It's no wonder that many parents have difficulty navigating this innovative mathematical and pedagogic terrain. Now help is here. Inspired by UCSMP's firsthand experiences with parents and teachers, Everyday Mathematics for Parents will equip parents with an understanding of EM and enable them to help their children with homework—the heart of the great parental adventure of ensuring that children become mathematically proficient. Featuring accessible explanations of the

research-based philosophy and also provide an understanding of the long-term utility of design of the program, and insights into the strengths of EM. Easy to use, yet jam-packed with knowledge and the big-picture information helpful tips, *Everyday Mathematics for Parents* will become a pocket mentor to descriptions of how and why this approach is different are parents and teachers new to EM paired with illustrative tables that underscore the unique attributes of EM. Detailed guidance for assisting students with homework includes explanations of the key EM concepts that underlie each assignment. *Everyday Mathematics* Carson-Resources for helping students practice math more at home Dellosa Publishing This easy-to-use consumable
