2013 Laura Ingalls Wilder Award Rosa's mother is singing again, for the first time since Papa died in an accident in the mills. But instead of filling their cramped tenement apartment with Italian lullabies, Mamma is out on the streets singing union songs, and Rosa is terrified that her mother and older sister, Anna, are endangering their lives by marching against the corrupt mill owners. After all, didn't Miss Finch tell the class that the strikers are nothing but rabble-rousers—an uneducated, violent mob? Suppose Mamma and Anna are jailed or, worse, killed? What will happen to Rosa and little Ricci? When Rosa is sent to Vermont with other children to live with strangers until the strike is over, she fears she will never see her family again. Then, on the train, a boy begs her to pretend that he is her brother. Alone and far from home, she agrees to protect him . . . even though she suspects that he is hiding some terrible secret. From a beloved, award-winning author, here is a moving story based on real events surrounding an infamous 1912 strike.

Instead of chanting grammar rules or completing countless convention worksheets, we invite young writers to explore conventions as special effects devices that activate meaning. Our students study authentic texts and come to recognize these "patterns of power"--the essential grammar conventions that readers and writers require to make meaning. The first part of the book introduces a vibrant approach to grammar instruction and sets up what you need to immerse yourself in the Patterns of Power process, inviting students to experiment and play with language. The second part of the book offers over seventy practical, ready-to-use lessons, including: Extensive support materials Over 100 mentor sentences, curated for grades 1-5 Student work samples Tips and power notes to facilitate your own knowledge and learning Examples for application In Patterns of Power Jeff and Whitney suggest that taking just five minutes from your reading workshop and five minutes from your writing workshop to focus on how the conventions connect reading and writing will miraculously affect your students' understanding of how language works for readers and writers.

"Leading the student to understand what he did as a reader can become a lens that brings into focus what the writer had to do before a reader ever saw the page," they write.
