Organizational flirts and marriages alliances, mergers and acquisitions are dramatic examples of how soft cultures can produce hard facts of success or failure. Decisions born from human vanity can lead to destruction of human capital. The chapters selected by Ulijn, Duysters and Meijer illustrate the many facets of organizational family life for the scholar and, hopefully, for the decision-maker who considers another move. Geert Hofstede, author of Culture s Consequences This unique book focuses on the link between different types of culture (national, corporate, professional) and the success of strategic alliances, mergers and acquisitions. Over the past decades we have seen a significant increase in the number of strategic alliances, mergers and acquisitions. Despite this proliferation many recent studies have reported high failure rates. This failure is often attributed to cultural differences between partners, which has led to a growing body of literature on the subject. To date, most of these studies have focused on national and corporate culture, whereas this book also places particular emphasis on the importance of culture at the professional level. The authors clearly show that all three levels of culture may have a profound impact upon the ultimate success or failure of alliances, mergers and acquisitions. Researchers

in the field of international business, strategic management, and strategic alliances, mergers and acquisitions will find this book to be of invaluable interest. Managers in multinational corporations and international business students should also not be without this important resource.

One of the most important forms of communication--intuition--is often overlooked or misunderstood by many people. In *The Gift Within Us*, author Mary Ann Bohrer explores the subject of intuition through interviews with scientists, paranormal researchers and 33 highly gifted intuitives from around the world who share their stories in individual profile chapters. Ultimately, we learn that every individual has access to this amazing divine wisdom simply by listening to our own inner voice. The process is simple, but the rewards are profound. According to research, people are increasingly identifying themselves as "spiritual but not religious," yet they don't know how to satisfy their yearning for greater spiritual connection and understanding. In this insightful and groundbreaking book, the author outlines six simple steps to accessing our own inner voice, so that each and every one of us can tap into this incredibly powerful form of communication and divine guidance, *The Gift Within Us*. About The Author Mary Ann Bohrer is a PR professional, communications specialist and intuition advocate who has interviewed some of the most gifted intuitives in the world. She has also interviewed top scientists, psi researchers, academicians and even a leading Catholic Archbishop regarding the topic of intuition, and shares her findings in *The Gift Within Us* that each and every one of us--regardless of religious affiliation, or whether they identify as religious at all--has access to this amazing and life-changing gift, simply by listening to our own inner voice. Editorial Reviews "In *The Gift Within Us*, Mary Ann really captures what it's like to be a psychic medium, and this book shows us how to listen to our own inner voice. This intelligent book will help many people appreciate and access the spiritual world." James Van Praagh, Spiritual medium and author of *Talking to Heaven*, *Adventures of the Soul*, and *The Power of Love* "This direct connection has always been available to all of us. Some receive this guidance through prayer, some through meditation, and others by simply listening to their inner voice. We all have access to divine wisdom - it's just a matter of knowing and trusting that we are loved and worthy of receiving that guidance."

Archbishop Harry J. Flynn, former Archbishop Emeritus of the Archdiocese of St. Paul and Minneapolis "The evidence is in - intuition is real and it exists within all of us to various degrees. Mary Ann has written a powerful and engaging book that documents real life evidence for this precious gift, and underscores

the benefits of listening to our own inner voice." Gary E. Schwartz, PhD, Professor of Psychology, Medicine, Neurology, Psychiatry and Surgery, University of Arizona and Author of *Super Synchronicity*, *The Afterlife Experiments* and *The Sacred Promise* "Most people have had one or more extraordinary intuitive or transcendent experiences, but we quickly learn not to talk about them. They feel strange and otherworldly, so we're concerned how others will react if we tell them our stories. This is why Mary Ann Bohrer's *The Gift Within Us* is such a gift. It helps to break the paradox of common experiences that no one wants to talk about, and it reminds us that these experiences are real, normal, and valuable. Highly recommended!" He maps the genealogy of this development in fiction, political discourse, and the popular press, from Edgeworth's *Castle Rackrent* through Trollope's Irish novels, focusing on the pivotal period from 1806 through the 1870s.
