We're not looking to get rich and forget our roots. We're trying to make a few bucks so we can spend more time helping gearheads build high performance machines & lives. This issue isn't perfect, but neither are our daily drivers. We hope you'll grab a copy and tell a couple friends about us. Thanks for checking us out. GBXM-united. Anyone who has ever been touched by the death of a friend or loved one will want to read this book. It can help you understand that death isn't the end, it's merely another step in life's path. This book touches on a subject that is meaningful to all us, death and the afterlife. Read how a bicycle accident and near death experience changed the author's life along with her understanding of life and death. Out of this experience also came her job of escorting the dead to the afterlife. A job that she says, "...is filled with as much heartache as it is joy. It's a job that has taught me a lot about compassion and love, but most of all, it has taught me that death isn't the end of life." The accident opened up a world that most us never see until we die; however, for her, it's a world that she visits often while escorting departing souls to their new existence in the afterlife.

I Will Survive is the story of Gloria Gaynor, America's "Queen of Disco." It is the story of riches and fame, despair, and finally salvation. Her meteoric rise to stardom in the mid-1970s was nothing short of phenomenal, and hits poured forth that pushed her to the top of the charts, including "Honey Bee," "I Got You Under My Skin," "Never Can Say Goodbye," and the song that has immortalized her, "I Will Survive," which became a #1 international gold seller. With that song, Gloria heralded the international rise of disco that became synonymous with a way of life in the fast lane - the sweaty bodies at Studio 54, the lines of cocaine, the indescribable feeling that you could always be at the top of your game and never come down. But down she came after her early stardom, and problems followed in the wake, including the death of her mother, whose love had anchored the young singer, as well as constant battles with weight, drugs, and alcohol. While her fans always imagined her to be rich, her personal finances collapsed due to poor management; and while many envied her, she felt completely empty inside. In the early 1980s, sustained by her marriage to music publisher Linwood Simon, Gloria took three years off and reflected upon her life. She visited churches and revisited her mother's old Bible. Discovering the world of gospel, she made a commitment to Christ that sustains her to this day.

How did cranes come to symbolize matrimonial happiness? Why were magpies the only creatures that would not go inside Noah's Ark? Birds and bird imagery are integral parts of our language and culture. With her remarkable ability to dig up curious and captivating facts, Diana Wells hatches a treat for active birders and armchair enthusiasts alike. Meet the intrepid adventurers and naturalists who risked their lives to describe and name new birds. Learn the mythical stories of the gods and goddess associated with bird names. Explore the avian emblems used by our greatest writers--from Coleridge's albatross in "The Ancient Mariner" to Poe's raven. A sampling of the bird lore you'll find inside: Benjamin Franklin didn't want the bald eagle on our National Seal because of its "bad moral character," (it steals from other birds); he lobbied for the turkey instead. Chaffinches, whose Latin name means "unmarried," are called "bachelor birds" because they congregate in flocks of one gender. Since mockingbirds mimic speech, some Native American tribes fed mockingbird hearts to their children, believing it helped them learn language. A group of starlings is called a murmuration because they chatter so when they roost in the thousands. Organized alphabetically, each of these bird tales is accompanied by a two-color line drawing. Dip into 100 Birds and you'll never look at a sparrow, an ostrich, or a wren in quite the same way.

On Sunday, September 6, 1970, the Popular Front for the Liberation of Palestine (PFLP) hijacked four airliners bound from Europe for New York. One, a brand new Pan Am 747, was taken to Cairo and blown up only seconds after its passengers escaped. The attempt to hijack a second plane, an El Al flight, was foiled and the plane landed safely in the UK. Two other planes, one TWA and one Swissair, were directed to the desert floor thirty-five miles northeast of Amman, Jordan, where a twenty-five day hostage drama began. With the additional hijacking of a British airliner, over four hundred and fifty hostages had landed in the Jordanian desert. David Raab was on the TWA flight with his mother and siblings but was separated from them and taken to a refugee camp and then to an apartment in Amman where he was held hostage through a civil war. This is his story.
