Social Democracy is on the back-foot, and increasingly centre-left political parties are struggling to win office. Bringing together a range of leading academics and experts on social democratic politics and policy, *Why the Left Loses* offers an international, comparative view of the changing political landscape, examining the degree to which the centre-left project is exhausted and is able to renew its message in a neo-liberal age. Using case studies from the UK, Germany, Spain, France, Australia and New Zealand contributors argue that despite different local and specific contexts, the mainstream centre-left is beset by a range of common challenges. Analysis focuses on institutional and structural factors, the role of key individuals, especially party leaders, and the atrophy of progressive ideas in explaining why the centre-left is currently in retreat. *Why the Left Loses* is aimed at stimulating wider debate about the fortunes of the centre-left.
