Princeton Review AP Biology Premium Prep  
2022 Princeton Review

This novel of turn-of-the-century white "Florida Crackers" marks a daring departure for the author famous for her complex accounts of black culture and heritage. Full of insights into the nature of love, attraction, faith, and loyalty, *Seraph on the Suwanee* is the compelling story of two people at once deeply in love and deeply at odds. The heroine, young Arvay Henson, is convinced she will never find true love and happiness, and defends herself from unwanted suitors by throwing hysterical fits and professing religious fervor. Arvay meets her match, however, in handsome Jim Meserve, a bright, enterprising young man who knows that

Arvay is the woman for him, and refuses to allow her to convince him otherwise. With the same passion and understanding that have made *Their Eyes Were Watching God* a classic, Hurston explores the evolution of a marriage full of love but very little communication and the desires of a young woman in search of herself and her place in the world.

Research & Education Assoc.

Biology for AP® courses covers the scope and sequence requirements of a typical two-semester Advanced Placement® biology course. The text provides comprehensive coverage of foundational research and core biology concepts through an evolutionary lens. Biology for AP® Courses was designed to meet and exceed the requirements of the College Board's AP® Biology framework while allowing significant

---

flexibility for instructors. Each section of the book includes an introduction based on the AP<sup>®</sup> curriculum and includes rich features that engage students in scientific practice and AP<sup>®</sup> test preparation; it also highlights careers and research opportunities in biological sciences.

*AP Biology Prep Plus 2020 & 2021* National Academies Press
